GLOSSARY OF TECHNICAL TERMS RELATING TO THE STRUCTURED WARRANTS

- American style : An American style warrant may be exercised at any time up to and including on the Expiry date
- Bull equity-linked structures or Bull ELS : Contract under which the Warrantholder has the right to receive on the settlement date:
- (i) the principal amount plus the enhanced yield amount, where the closing price of the Underlying Share on Expiry date is at or above the Exercise price; or
 - (ii) a specified number of Underlying Shares or an amount in the form of cash calculated by reference to the price of the Underlying Share, where the closing price of the Underlying Share on Expiry date is below the Exercise price
- Callable bull/bear certificate or CBBC : Contract under which upon the occurrence of a Mandatory Call Event, will be called and terminated by the Issuer before its Expiry date. A Warrantholder shall have actual, contingent or prospective right to receive a cash amount, depending on the fluctuations in the value or price of an Underlying Instrument, and the amount will be calculated in accordance with the contract
- Call price or Call level : The pre-specified price or level of the Underlying Instrument (as specified in the relevant Term Sheet) at which the Issuer must call the warrants before its Expiry date subject to any adjustments as may be necessary in accordance to the Conditions
- Call warrant : Contract under which the Warrantholder has the right but not the obligation to buy, a specified number of Underlying Instrument at a specified price/level on or by a specified future date according to the terms of issue (physical-settled) or to receive cash payment (cash-settled) based on the price/level of the Underlying Instrument and Exercise price/level of the Call warrant
- Cash Settlement Amount : The amount of cash to be paid on the valid exercise of the Structured Warrants in accordance with the Conditions
- Delta : The relationship between the expected change in the warrant price and the corresponding change in the Underlying Instrument price/level, as follows:

$$\frac{\text{Change in the warrant price} \times \text{Exercise Ratio}}{\text{Change in the underlying instrument price/level}}$$

For illustrative purposes, for a Call/Put warrant with an Exercise Ratio of 2, a Delta of 0.50 (Call warrant) or -0.50 (Put warrant) implies that if the value of the Underlying Instrument changes by 20 sen, then the value of the Call/Put warrant should change by 5 sen

- Effective gearing : A measure of the theoretical change in the Call/Put warrant or CBBC price for a 1% change in the Underlying Instrument price. The formula for Effective gearing is as follows:

GLOSSARY OF TECHNICAL TERMS RELATING TO THE STRUCTURED WARRANTS (Cont'd)

Gearing x Delta

For illustrative purposes only, a gearing of 10 and a Delta of 0.50 would equate to an Effective gearing multiple of 5 times. Accordingly, a 1% change in the price of the Underlying Instrument may result in an approximately 5% change in the price of the warrant

- Exchange-Traded Fund : A listed index-tracking fund structured as a collective investment scheme or any other approved structures whose primary objective is to achieve returns that correspond to the performance of a particular index
- Exercise level : The pre-specified level of the Underlying Index as determined by the Issuer at which the Warranholders may exercise the right under the series of Structured Warrants. The Exercise level is subject to any adjustment as may be necessary in accordance to the Conditions
- Exercise price : The pre-specified price of the Underlying Shares or Underlying ETF(s) as determined by the Issuer at which the Warranholders may exercise the right under the series of Structured Warrants. The Exercise price is subject to any adjustment as may be necessary in accordance to the Conditions and as specified in the relevant Term Sheet
- Exercise Ratio/ Entitlement : The number of Structured Warrants to which one (1) Underlying Instrument relates, as specified in the relevant Term Sheet. The Exercise Ratio / Entitlement is subject to any adjustment as may be necessary in accordance to the Conditions
- Exercise style : A Structured Warrant may be exercised either in European style or American style in accordance with the terms of issue
- Expiry date : Such date of expiry of a particular Structured Warrant to be determined by the Issuer and as specified in the relevant Term Sheet, after which any outstanding unexercised Structured Warrants shall be automatically exercised and cease to be valid and the Issuer's obligations in respect of the Structured Warrants shall terminate absolutely
- European style : A European style warrant may only be exercised on the Expiry date
- Gearing : A measure of the ratio of Underlying Instruments to which exposure is gained by purchasing one (1) Call/Put warrant or CBBC. The formula for Gearing is as follows:

$$\frac{\text{Underlying Instrument price/level}}{\text{Warrant price x Exercise Ratio}}$$

For illustrative purposes, for a warrant with an Exercise Ratio of 2, a Gearing of 10 implies that every RM1.00 exposure in the warrant equates to an exposure of approximately RM10.00 in the Underlying Instrument

- Implied volatility : A measure of an Underlying Instrument's expected volatility as reflected by the market price of the traded warrant on that Underlying Instrument using an appropriate model

All things being equal, in general the higher the expected volatility, the higher the warrant price

GLOSSARY OF TECHNICAL TERMS RELATING TO THE STRUCTURED WARRANTS (Cont'd)

- In-the-money : (i) A Call warrant or Callable bull certificate is in-the-money when the price/level of the Underlying Instrument is above the Exercise price/level of the Call warrant or Callable bull certificate, i.e. when the Call warrant or Callable bull certificate has an Intrinsic value;

- Intrinsic value : Amount by which the price of the Underlying Instrument exceeds the Exercise price/level of the Call warrant or Callable bull certificate, or the amount by which the price of the Underlying Instrument is below the Exercise price/level of the Put warrant or Callable bear certificate
- Mandatory Call Event : The first occurrence at any time before the Expiry date of CBBC where the transacted price/level of the Underlying Instrument is at or below (in respect of a Callable bull certificate) or at or above (in respect of a Callable bear certificate) the Call price/level and upon which the CBBC will be called by the Issuer
- Out-of-the-money : (i) A Call warrant or Callable bull certificate is out-of-the-money when the price/level of the Underlying Instrument is below the Exercise price/level of the Call warrant or Callable bull certificate, i.e. when the Call warrant or Callable bull certificate does not have any Intrinsic value; and
- (ii) A Put warrant or Callable bear certificate is out-of-the-money when the price/level of the Underlying Instrument is above the Exercise price/level of the Put warrant or Callable bear certificate, i.e. when the Put warrant or Callable bear certificate does not have any Intrinsic value
- Physical Settlement Amount : In respect of the number of Bull ELS held on the Expiry date, the number of Underlying Shares to be delivered to the Warrantholder, if applicable
- Premium : The premium of Call warrant or Callable bull certificate is based on the following computation:

$$\frac{(\text{Call warrant or Callable bull certificate price} \times \text{Exercise Ratio}) + \text{Exercise price/level} - \text{Underlying Instrument price/level}}{\text{Underlying Instrument price/level}}$$

Underlying Instrument price/level

The premium of Put warrant or Callable bear certificate is based on the following computation:

$$\frac{\text{Underlying Instrument price/level} - [\text{Exercise price/level} - (\text{Put warrant or Callable bear certificate price} \times \text{Exercise Ratio})]}{\text{Underlying Instrument price/level}}$$

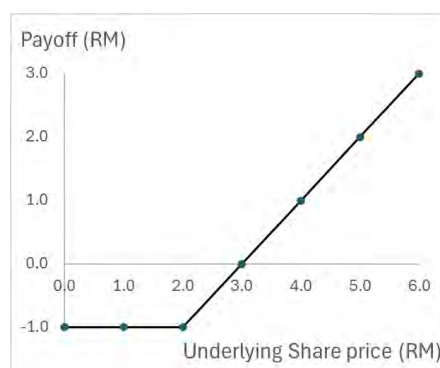

Underlying Instrument price/level

GLOSSARY OF TECHNICAL TERMS RELATING TO THE STRUCTURED WARRANTS (Cont'd)

- Put warrant : Contract under which a Warranholder has the right but not the obligation to sell a specified number of Underlying Instrument (physical-settled) at a specified price/level or by a specified future date or to receive a cash payment (cash-settled) based on the price/level of the Underlying Instrument and Exercise price/level of the Put warrant
- Strike price : In relation to a particular series of Bull ELS, the strike price is the pre-specified price as determined by the Issuer and as specified in the relevant Term Sheet
- VWAP : Volume weighted average price
- Warrants : Warrants are leveraged financial instruments that derive their value from some other Underlying Instrument, which includes equities, a basket of different equities, an index or an ETF, and can provide exposure referenced to the Underlying Instrument

Call warrants

The following is an illustration of the payoff relating to an investment in a Call warrant where the price paid for a Call warrant or the purchase price, is RM1.00 and the Exercise price is RM2.00 (assuming no transaction or holding cost and the Exercise Ratio is 1 for 1)

The payoff is equivalent to the price of Underlying Share less Exercise price less purchase price. As illustrated, a positive payoff is attainable only if the Underlying Share price exceeds RM3.00 upon exercise. Warranholders will achieve breakeven if the price of the Underlying Share is RM3 upon exercise. If the price of the Underlying Share is below RM3.00, the Warranholder upon exercise, will realise a loss. The Warranholder's loss, however, is limited to the purchase price of RM1.00 and any relevant transaction costs

Put warrants

The following is an illustration of the payoff relating to an investment in a Put warrant where the price paid for a Put warrant or the purchase price, is RM1.00 and the Exercise price is RM3.00 (assuming no transaction or holding cost and the Exercise Ratio is 1 for 1)

GLOSSARY OF TECHNICAL TERMS RELATING TO THE STRUCTURED WARRANTS *(Cont'd)*

The payoff is equivalent to the Exercise price less the price of Underlying Share less purchase price. As illustrated, a positive payoff is attainable only if the Underlying Share price is below RM2.00 upon exercise. Warrantheolders will achieve breakeven if the price of the Underlying Share is RM2 upon exercise. If the price of the Underlying Share exceeds RM2.00, the Warrantheolder upon exercise, will realise a loss. The Warrantheolder's loss, however, is limited to the purchase price of RM1.00 and any relevant transaction costs

SCENARIO ANALYSIS ON INVESTMENT IN STRUCTURED WARRANTS

Best and worst case scenarios of the Warranholders' investment in the Call warrants

- **Best case scenario:**

The price/level of the Underlying Instrument increases substantially resulting in a significant increase in the price of the Call warrants. If the Warranholders hold the Call warrants until the Expiry date, the higher the closing price/level of the Underlying Instrument is relative to the Exercise price/level of the Call warrants, the higher the return will be after considering the transaction costs. If the Warranholders sell the Call warrants prior to the Expiry date, the more the selling price of the Call warrants exceeds the purchase price of the Call warrants, the higher the return will be after considering their transaction costs.

- **Worst case scenario:**

The price/level of the Underlying Instrument decreases significantly resulting in a substantial decrease in the price of the Call warrants. If the Warranholders have not sold the Call warrants and the Call warrants expire out-of-money, the maximum loss will be the Warranholders' entire investment amount in the Call warrants plus any transaction costs.

Best and worst case scenarios of the Warranholders' investment in the Put warrants

- **Best case scenario:**

The price/level of the Underlying Instrument decreases substantially resulting in a significant increase in the price of the Put warrants. If the Warranholders hold the Put warrants until the Expiry date, the higher the Exercise price/level of the Put warrants is relative to the closing price/level of the Underlying Instrument, the higher the return will be after considering the transaction costs. If the Warranholders sell the Put warrants prior to the Expiry date, the more the selling price of the Put warrants exceeds the purchase price of the Put warrants, the higher the return will be after considering their transaction costs.

- **Worst case scenario:**

The price/level of the Underlying Instrument increases significantly resulting in a substantial decrease in the price of the Put warrants. If the Warranholders have not sold the Put warrants and the Put warrants expire out-of-money, the maximum loss will be the Warranholders' entire investment amount in the Put warrants plus any transaction costs.

SCENARIO ANALYSIS ON INVESTMENT IN STRUCTURED WARRANTS (Cont'd)

Best and worst case scenarios of the Warranholders' investment in the Callable bull certificates

- **Best case scenario:**

The price/level of the relevant Underlying Instrument increase substantially upon the Warranholders' purchase of the Callable bull certificates. If the Warranholders hold the Callable bull certificates until the Expiry date (assuming there is no Mandatory Call Event), the more the closing price/level of the Underlying Instrument exceeds the Exercise price/level, the higher the Warranholders' return will be after considering any transaction cost. If the Warranholders sell the Callable bull certificates prior to the Expiry date (assuming there is no Mandatory Call Event), the more the selling price exceeds the purchase price of the Callable bull certificates, the higher the Warranholders' return will be after considering any transaction cost.

- **Worst case scenario:**

In the case when there is no Mandatory Call Event and the Warranholders hold the Callable bull certificates until its Expiry date, if the Cash Settlement Amount of the Warranholders' Callable bull certificates after deduction of any exercise expenses is equal to or less than zero, the Warranholders will lose the entire value of their investment in addition to any transaction costs. In the case where a Mandatory Call Event is triggered, and the difference between the Call price and Strike price is zero, the Warranholders will lose the entire value of their investment in addition to any transaction cost.

Best and worst case scenarios of the Warranholders' investment in the Callable bear certificates

- **Best case scenario:**

The price/level of the relevant Underlying Instrument decrease substantially within a short period of time upon the Warranholders' purchase of the Callable bear certificates. If the Warranholders hold the Callable bear certificates until its Expiry date, the lower the closing price/level of the Underlying Instrument is relative to the Exercise price/level, the higher the Warranholders' return will be after considering any transaction cost. If the Warranholders sell the Callable bear certificates prior to the Expiry date (assuming there is no Mandatory Call Event), the more the selling price exceeds the purchase price of the Callable bear certificates, the higher the Warranholders' return will be after considering any transaction cost.

- **Worst case scenario:**

In the case when there is no Mandatory Call Event and the Warranholders hold the Callable bear certificates until its Expiry date, if the Cash Settlement Amount of the Warranholders' Callable bear certificates after deduction of any exercise expenses is equal to or less than zero, the Warranholders will lose the entire value of their investment in addition to any transaction costs. In the case where a Mandatory Call Event is triggered, and the difference between the Exercise price and Call price is zero, the Warranholders will lose the entire value of their investment in addition to any transaction cost.

SCENARIO ANALYSIS ON INVESTMENT IN STRUCTURED WARRANTS (*Cont'd*)

Best and worst case scenarios of the Warranholders' investment in the Bull ELS

- **Best case scenario:**

In the case the Warranholders hold the Bull ELS until the expiry date, the more the Closing Price exceeds the Strike Price of the Bull ELS, the higher the Warranholders' return will be after considering any transaction cost. In the case the Warranholders sell the Bull ELS prior to the expiry date, the more the selling price exceeds the purchase price of the Bull ELS, the higher the Warranholders' return will be after considering any transaction cost.

- **Worst case scenario:**

In the case the Warranholders have not sold the Bull ELS and hold Bull ELS until the expiry date, if the Closing Price is below the Strike Price of the Bull ELS, the Bull ELS will be physically settled by delivering a number of shares equal to the number of Bull ELS. The lower the market price of the Underlying Shares, the lower the value of the investment to be realised by the Warranholders in the case of physical settlement. If KIBB is insolvent and does not have sufficient money to arrange for settlement, the Warranholders will lose the entire value of their investment together with any transaction cost.

- (ii) Each issue of the Structured Warrants must meet the minimum total face amount of RM5 million.

3.2 Information on KIBB

3.2.1 History and Background

Our Company was incorporated in Malaysia under the Act on 6 September 1973 as a private company under the name 'K & N Kenanga Sdn'. The Company was subsequently converted to a private limited company under the name 'K & N Kenanga Sdn Bhd' on 10 May 1975. Following the conversion to a public limited company on 7 December 1995, the Company's name was changed to 'K & N Kenanga Bhd'. The Company assumed its present name, 'Kenanga Investment Bank Berhad' since 5 January 2007 when it was granted investment bank status. On 2 November 2016, K & N transferred its listing status on the Main Market of Bursa Securities to KIBB which resulted in KIBB being the primary operating and listed entity of the KIBB Group. The Company is a financial institution under the FSA and is regulated by BNM, the SC and Bursa Securities.

Today, we offer a wide range of conventional and Islamic financial products and services via our corporate and institutional coverage, corporate finance, debt capital markets, equity capital markets, corporate banking, equity broking, equity derivatives, treasury and digital investment management. We also offer asset management, derivatives broking, money lending, trustee services, a digital asset exchange ("**DAX**") and a wealth platform via our subsidiaries.

3.3 Risk Factors in relation to Structured Warrants

Before investing in the Structured Warrants, you should carefully consider the risk factors set out in Section 4 of this Base Prospectus and the risk factors on the relevant Underlying Instruments set out in the relevant Term Sheets to be issued, in addition to other information contained elsewhere in this Base Prospectus and the relevant Term Sheets.

You should consider carefully whether the Structured Warrants are suitable for you taking into account your experience, objectives, financial position and other relevant circumstances. The Structured Warrants are not suitable for investors who do not have adequate knowledge in options and warrants.

Some of the risks involved are as set out below:

(i) Risks relating to the Issuer:

- Credit risk

3. SUMMARY INFORMATION *(Cont'd)*

If you intend to purchase our Structured Warrants, you should be aware that you will be relying on the creditworthiness of our Company. You must therefore make your own assessment on the credit risk associated with KIBB and our ability to perform our obligations in respect of our Structured Warrants. Credit ratings assigned by the rating agency reflect their opinion on our credit risk, which is only one aspect of any investment decision, and ratings are subject to change. Any downgrading of our credit ratings could result in a reduction in the value of the Structured Warrants, and you should not construe the credit ratings as investment advice nor a recommendation to invest in the Structured Warrants.

- Trading by KIBB Group

KIBB Group may at any time purchase or buy-back our Structured Warrants and become Warrantholder(s). Any Structured Warrants purchased may be held or resold and may also be surrendered for cancellation. However, cancellation of the Structured Warrants may only occur if all outstanding Structured Warrants have been purchased by KIBB Group.

In addition, we or any other member of the KIBB Group may also trade in our Structured Warrants, the Underlying Shares or any other securities and financial products relating to any of the Underlying Companies, Underlying ETF or Underlying Index. These trading activities may affect (positively or negatively) the price at which the Structured Warrants, the Underlying Shares, the Underlying ETF or any other securities and financial products relating to any of the Underlying Companies, Underlying ETF or Underlying Index (as the case may be) are traded on Bursa Securities or other Securities Exchange outside Malaysia.

- Exercise of discretion as reasonably deemed fit by us

You should note that we may exercise our discretion as reasonably deemed fit to make adjustments to the Exercise price and/or Exercise Ratio of the Structured Warrants in circumstances contemplated under the Conditions, for instance in the event of rights issue, bonus issue, subdivision or consolidation of the Underlying Shares and capital repayment, which could affect the value of the Structured Warrants.

Additionally, in the event of a market disruption or settlement disruption, we may exercise our discretion to determine the reference price, exchange rate and/or valuation period in respect of the Structured Warrants as reasonably deemed fit under the Conditions.

- No investigation or review performed on the Underlying Companies or the Underlying ETF or the Underlying Index Sponsor or the companies constituting the Underlying Index

We have not performed any investigation or review of the business operations and prospects of the Underlying Companies. We have also not performed any investigation or review of the Underlying ETF, the Underlying Index Sponsor or the companies constituting the Underlying Index. Therefore, you should not assume that the issuance of any Structured Warrants represents a recommendation by us of an investment in the Underlying Companies, Underlying Index, Underlying ETF, or the companies constituting the Underlying Index.

- Potential and actual conflict of interest situations arising from the business activities of the KIBB Group

In connection with the offering of any Structured Warrants, we may also enter into hedging transactions with respect to the Underlying Instruments. In the ordinary

3. SUMMARY INFORMATION (Cont'd)

course of business of the KIBB Group, we may also possess or acquire material information about the Underlying Instruments.

The above activities may affect the value of the Underlying Instruments in a manner which may consequently affect the value of the relevant Structured Warrants. We may also issue other derivative instruments in respect of the same Underlying Instrument which may compete with the Structured Warrants and may affect the price of the Structured Warrants. KIBB Group has no obligation to disclose such information about the Underlying Instrument or such activities unless it is required by the laws and regulations.

- Take-over, scheme of arrangement, merger, amalgamation, reconstruction, liquidation, dissolution or winding-up of the Issuer

Should we be liquidated or dissolved, or a receiver and/or administrator be appointed in respect of the whole or substantial part of our undertakings, properties or assets, there is a risk that the Structured Warrants may be cancelled before the relevant Expiry date of such Structured Warrants and cause you to suffer a loss or a reduced profit.

In the event that we undertake a take-over, or a scheme of arrangement, or any other events or reorganisation having similar effects as a take-over or scheme of arrangement on the rights of the Warranholders, we may exercise our discretion to deal with the Structured Warrants in such manner as we may reasonably deem fit in the circumstances including adjustments to the rights attaching to the relevant Structured Warrants.

In the event we are involved in a merger, amalgamation or reconstruction, the corporation, trust or other body into which we are merged, amalgamated, or reconstructed shall assume all our liabilities and obligations as an issuer in respect of the Structured Warrants so that the rights of the Warranholders shall continue to exist and be enforceable to the same extent as provided under the Deed Poll. In such case, you will face the credit risk of such corporation, trust or other body instead of us.

(ii) Risks relating to the Structured Warrants:

- General investment risks

Our Structured Warrants are considered to be suitable only for those who fully understand the risks involved and are prepared to sustain a complete loss of the purchase price paid for the Structured Warrants or in the case of Bull ELS, end up with Underlying Shares with a value lower than the subscription amount paid for the Bull ELS.

Fluctuations in the price/level of the Underlying Instruments will affect the price of the Structured Warrants but not necessarily in the same magnitude and direction.

- Factors affecting the price of the Structured Warrants

The price at which the Structured Warrants trade on Bursa Securities depends on, amongst others, the Exercise price/level of the Structured Warrants, the bid-offer price, volatility and liquidity of the Underlying Shares and the Underlying ETF, the performance of the Underlying Index, the time remaining to expiration, changes in interim interest rates and dividend yields of the Underlying Companies. As such, there is no assurance that the market price of the Structured Warrants will, upon and after the Listing, be equal to or exceed the price paid by the investors.

The trading price of the Underlying Shares or Underlying ETF is affected by their trading activity which is, in turn, influenced by the operational and financial

3. SUMMARY INFORMATION (Cont'd)

conditions, future prospects and business strategy of the Underlying Companies or the decisions and actions of the manager or trustee of the Underlying ETF (as the case may be), as well as changes in the regulatory and economic environment. Additionally, the level of the Underlying Index may vary over time, as it is based on the performance of the companies constituting the Underlying Index. Therefore, you are warned that the price of the Structured Warrants may fall in value as rapidly as it may rise.

In addition to the above, investors in the Bull ELS should recognise the risks arising from the fluctuations in the price of the Underlying Shares which may be significant and unpredictable. The price of the Underlying Shares may be affected by, among others, the financial condition, results of operations and prospects of the relevant Underlying Company. In particular, here is a risk that the price of the Underlying Shares may fall below the strike price and, consequently, the Bull ELS may expire worthless or where applicable, be settled by delivery of the Underlying Shares, the market value of which may be equal or lower than the Strike price.

- Time decay

The Structured Warrants have Expiry dates and therefore, a limited life. Structured Warrants are generally more valuable when the remaining life of the Structured Warrants are longer. After expiry, the Structured Warrants will cease to be traded and can no longer be exercised, hence will cease to have any value.

- Warrantheolders do not have similar rights as the holders of the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index

The Structured Warrants do not confer on the Warrantheolders any rights to the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index. Accordingly, if our Company becomes insolvent, Warrantheolders will not have any rights over the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index or Underlying ETF.

The physical-settled Bull ELS do not confer Warrantheolders any rights to Underlying Shares, except when the Underlying Shares has been delivered to the Warrantheolders in accordance with the Conditions for the Bull ELS over local Underlying Shares. Bull ELS over foreign Underlying Shares are cash-settled and Warrantheolders of such Bull ELS do not have any rights to the Underlying Shares.

- Risk of "European Style" Structured Warrants

European style Structured Warrants are only exercisable on their Expiry date. Accordingly, on the Expiry date, if the Cash Settlement Amount is zero or negative, you will lose the entire value of your investment.

- Gearing effect and correlation

The gearing provided by investing in the Structured Warrants (save for the Bull ELS) provides certain degree of leverage to the Warrantheolders where the value of the Structured Warrants may change to an extent greater than the change in the value of the Underlying Instruments. As such, the risk of investing in the Structured Warrants may be greater than investing the same amount in the Underlying Instruments due to the gearing/leverage effect of the Structured Warrants. There is no assurance that the price of the Structured Warrants will correlate with the movements in price or level of the Underlying Instruments.

3. SUMMARY INFORMATION *(Cont'd)*

- Suspension in the trading of the Underlying Instruments and/or Structured Warrants

If the trading in the Underlying Shares or Underlying ETF or options or futures relating to the relevant Underlying Index is suspended on Bursa Securities or the relevant Securities Exchange outside Malaysia, or if the relevant Underlying Index is not calculated, then trading in the Structured Warrants on Bursa Securities may also be suspended for a similar period if Bursa Securities deems such action advisable in the public interest or to protect investors. If Bursa Securities does not suspend the trading of the Structured Warrants, we may still request for a suspension in the trading of the Structured Warrants.

You should be aware that the closing prices or levels of the Underlying Instruments for the calculation of the Cash Settlement Amount may vary if you intend to exercise your Structured Warrants during a suspension in the trading of the Underlying Instruments and/or Structured Warrants as a result of a take-over offer, compulsory acquisition or a delisting of the Underlying Shares or the Underlying ETF.

- Trading liquidity of our Structured Warrants

As there has been no recent or prior market for a particular series of Structured Warrants before its issuance, there can be no assurance that an active market for a particular series of Structured Warrants will develop upon its listing, or if developed, that such market will sustain throughout the life of the Structured Warrants. Additionally, although we will be acting as liquidity provider, the level of liquidity will depend on competitive forces and the price at which the Structured Warrants will trade. The level of liquidity of the Structured Warrants may also be negatively impacted if we are unable to provide bid and offer prices or reply to a request for prices.

- Impact of corporate actions

The price or level of the Underlying Instruments may increase or decrease over time due to various factors, including corporate actions by the Underlying Companies or the manager or trustee of the Underlying ETF. Certain corporate actions may have a dilutive or concentrative effect on the price of the relevant Underlying Shares or Underlying ETF, which may affect the valuation of the Structured Warrants.

Such corporate actions (such as bonus issue of shares, rights issue of shares, subdivision or consolidation of share capital and capital repayment in cash) require or allow us to make adjustments or amendments to, amongst others, the Exercise price, Exercise level, Call price or Call level of the Structured Warrants, but only to the extent provided for in the Conditions.

Additionally, should there be a merger event, a take-over offer, de-listing, nationalisation, liquidation or winding-up involving the Underlying Shares, Underlying ETFs or Underlying Companies (as the case may be), the outstanding Structured Warrants will be automatically exercised and settled in accordance with the provisions of the Deed Poll and the Conditions.

- Delay in or abortion of the Listing

The occurrence of certain events, including but not limited to the following, may cause a delay in or abortion of the Listing for each series of the Structured Warrants on Bursa Securities:

3. SUMMARY INFORMATION (Cont'd)

- (i) we are unable to meet the public spread requirement as stipulated by Bursa Securities; or
- (ii) the minimum total face amount of RM5 million of the Structured Warrants is not met.

The above-mentioned requirement in (i) does not apply to an Issuer that provides liquidity for the Structured Warrants via Market Making in accordance with the Listing Requirements.

For issuance made by way of placement, where you have made payment for the application of the Structured Warrants prior to its Listing, the delay in the Listing of the Structured Warrants may cause you an opportunity loss, amongst others, where the movement in price of the Underlying Instruments referenced by the Structured Warrants are in your favour and you would not be able to realize the gain in Structured Warrants. In the event that we have to abort the Listing of the Structured Warrants, the monies paid in respect of your application will be returned to you without reimbursement of interest.

- KIBB discretion as reasonably deemed fit to determine the Underlying Index level

Certain events relating to an index (including material change in formula or the method of calculating the index or a failure to publish the index) permit us to determine the level of the index based on the formula and method of calculating the index before the occurrence of such events or deem the relevant series of Structured Warrants to be exercised and settled in cash. Therefore, you should be aware that any decision made by us may have an unforeseen adverse impact on the value of your investment.

- Impact of investment decisions entered by the trustee or management company of the ETF

KIBB Group is not able to control or predict the actions of the trustee or the manager of the relevant Underlying ETF. The trustee or manager of the relevant Underlying ETF is responsible for making investment and other trading decisions with respect to the management of the relevant Underlying ETF. Therefore, the manner in which the relevant Underlying ETF is managed and the timing of actions may have a significant impact on the performance of the relevant Underlying ETF. As such, the decisions and actions by the trustee or manager of the relevant Underlying ETF may adversely affect the market price of the relevant ETF Units which may, in turn, negatively affect the price of the Structured Warrants.

- Tracking error in the price of the Underlying ETF

Changes in the price of the Underlying ETF units may not result in the exact changes in the net asset value per unit of the Underlying ETF and consequently the value of the ETF Structured Warrants.

You may suffer losses if a tracking error has occurred and it negatively affects the value of the ETF Structured Warrants.

- Economic and political uncertainties

The financial and business prospects of an Underlying Company, the performance of the Underlying Index or the Underlying ETF may be affected by economic and political uncertainties. The economic and political uncertainties include but are not limited to changes in political leadership, expropriation, nationalisation (transfer of a private asset to a public ownership or state or government owned asset), re-negotiation or nullification of existing contracts, changes in interest rate, methods

3. SUMMARY INFORMATION (Cont'd)

of taxation and currency exchange rules. Such factors may negatively impact the performance of the Underlying Instruments which may in turn affect the value of the Structured Warrants.

- Market disruption and settlement disruption events

You should note that there may be a delay in the determination and/or payment of the cash settlement or delivery of the physical settlement upon the exercise or upon expiry of the Structured Warrants or upon a Mandatory Call Event of the CBBCs if there is a market disruption event or settlement disruption event.

Subject to the Conditions, the occurrence of a market disruption event shall grant us the discretion as reasonably deemed fit to determine the reference price, exchange rate and/or valuation period in respect of the Structured Warrants which consequently, may adversely affect the Cash Settlement Amount.

- Exchange rate risk

You should note that there may be an exchange rate risk where the Underlying Instrument is denominated in a foreign currency and the Cash Settlement Amount may be converted from a foreign currency into Ringgit Malaysia. Adverse movement in the exchange rate may potentially result in foreign exchange losses, which will be borne by the Warranholders. Such losses may reduce the Cash Settlement Amount ultimately received by the Warranholders.

(iii) Risks relating to the Structured Warrants over CBBCs:

- General investment risks

The CBBCs are considered to be suitable only for those who fully understand the risks involved and are prepared to sustain a complete loss of the purchase price paid for the CBBCs. The price of the CBBCs may fall in value as rapidly as it may rise and you may sustain a total loss of your investment.

- Mandatory Call Event is irrevocable

A Mandatory Call Event is irrevocable unless it is triggered as a result of the occurrence of any of the events set out in Section 4.3.2 of this Base Prospectus, in which case mutual agreement must be reached between Bursa Securities and KIBB to reverse the Mandatory Call Event.

If a Mandatory Call Event is triggered and not reversed, the CBBC will be terminated before its Expiry date. If the Cash Settlement Amount payable upon the occurrence of a Mandatory Call Event is less than or equal to zero, you will lose the entire value of your investment and will not be able to profit from the subsequent price movement of the Underlying Instrument.

- Delay in announcement of Mandatory Call Event

There may be a delay in the announcement of a Mandatory Call Event due to technical errors, system failures and/or other factors that are beyond our control and the control of Bursa Securities.

You may suffer losses as Bursa Securities may cancel the CBBCs trades that are executed after the Mandatory Call Event if the CBBCs are not suspended immediately after a Mandatory Call Event.

3. SUMMARY INFORMATION *(Cont'd)*

- Non-recognition of Post Mandatory Call Event Trades

After the occurrence of the suspension of trading of the CBBCs and termination of the same due to a Mandatory Call Event, all subsequent trades in the CBBCs executed after the Mandatory Call Event will be cancelled and will not be recognised by us or Bursa Securities. As such, you may suffer losses as a result of the suspension of trading and/or non-recognition of trades after the Mandatory Call Event (including any delay, failure, mistake or error in the trading suspension or non-recognition of trades after the Mandatory Call Event).

- Fluctuation in the funding cost

The purchase price paid by you for the CBBCs will include funding cost. The funding cost is a rate determined by the Issuer based on one of more factors, including the following:

- (i) the Issuer's financing rate (for Callable bull certificates) or the stock borrowing costs (for Callable bear certificates), after adjustments for any expected dividend yields of the Underlying Shares or Underlying ETF; and
- (ii) the profit margin charged by the Issuer for issuing CBBCs.

The funding cost fluctuates throughout the life of the CBBCs, as it is affected by one or more of the following factors, including but not limited to:

- the supply and demand of the Underlying Instruments being financed or borrowed;
- the liquidity, the volatility and the risk of hedging the Underlying Instrument at the point of time;
- the prevailing market interest rates; and/or
- the remaining time to expiry of the CBBCs.

When a Mandatory Call Event occurs, you may suffer losses as the Cash Settlement Amount (if any) may not contain a refund of any part of such funding costs.

- Hedging and unwinding of hedging activities may affect the value of CBBCs

Our trading or the hedging activities of the companies within KIBB Group related to the CBBCs and/or other financial instruments issued by us from time to time may have an impact on the price or level of the Underlying Instruments and may trigger a Mandatory Call Event.

Upon the occurrence of a Mandatory Call Event, we or our related parties may unwind any hedging transactions relating to the CBBCs. Such unwinding activities after the occurrence of a Mandatory Call Event may affect the price/level of the Underlying Instruments and consequently the Cash Settlement Amount for the Warranholders.

- Limited life of the CBBCs

The Structured Warrants have Expiry dates and therefore, a limited life. In the case of CBBC, the lifespan may be even shorter if a Mandatory Call Event occurs before the Expiry date.

You may suffer losses if the CBBCs are called and terminated early, as you will lose the funding cost for the remaining period and will not be able to profit from the subsequent price/level movement of the Underlying Instrument.

- (iv) Other risks:

3. SUMMARY INFORMATION *(Cont'd)*

- Timeliness and limitation of information regarding the Underlying Shares, Underlying ETF and Underlying Index

Certain information such as prices/level of the Underlying Shares, Underlying ETF and Underlying Index may be obtained or extracted from third party sources. However, we provide no assurance on the timeliness, accuracy, completeness of disclosure or availability of critical or material information of the Underlying Shares, Underlying ETF and Underlying Index, which was obtained from these third-party sources. Investors should also be aware that we have not independently verified the information obtained or extracted from the public or third-party sources. Any delay in the transmission, incompleteness or unavailability of information by these third party sources, whether relied by us for the purposes of market making or otherwise, may affect the performance of the Structured Warrants.

- Compliance with the relevant laws and regulations by the Underlying Companies or Underlying ETF or Underlying Index Sponsor

The failure of the Underlying Companies or Underlying Index Sponsor or the trustee, custodian, manager, registrar, service agent, participating dealer and/or other persons involved in constituting or undertaking the listing or trading of the Underlying ETF, to fully comply with the relevant laws, rules, regulations, guidelines, requirements or provisions imposed by the relevant authorities during the tenure of the Structured Warrants may affect the price and/or performance of the corresponding Underlying Instruments and in turn the price and/or performance of the relevant Structured Warrants.

- Potential tax implications and other transaction costs

In addition to the cost of the Structured Warrants, taxes and other transaction costs such as brokerage fees and clearing fees are incurred when Structured Warrants are bought or sold.

The acquisition and disposal of Structured Warrants normally attracts stamp duty at the prevailing rate as may be prescribed under the Stamp Act 1949. Additionally, the gains derived from investment in Structured Warrants may be subjected to income tax or capital gain tax, which treatment may vary depending on the legal identity of an investor, or the classification of income.

From time to time, taxation laws, regulations and their application are subject to changes, which may affect the potential tax implications arising from investing in the Structured Warrants at any given time.

- Risks related to any possible future outbreaks of disease

Any possible future outbreaks of disease may have a material and adverse effect on the business operations, financial position and prospects of an Underlying Company, the performance of the Underlying Shares, Underlying Index or Underlying ETF and consequently affect the value of the Structured Warrants.

Should there be another outbreak of disease that causes disruptions to global and domestic economic activity, KIBB Group's financial position may be adversely impacted. Prolonged and material impact on KIBB Group's financial position may also cause a downward rating in KIBB Group credit rating profile, which could in turn affect the ability to meet our financial commitments as a Structured Warrants Issuer.

Details on the above risk factors and our risk management framework are set out respectively in Section 4 and Section 6.7 of this Base Prospectus.

4. RISK FACTORS

BEFORE INVESTING IN THE STRUCTURED WARRANTS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS AND THE RISK FACTORS ON THE RELEVANT UNDERLYING INSTRUMENTS SET OUT IN THE RELEVANT TERM SHEETS TO BE ISSUED, IN ADDITION TO OTHER INFORMATION CONTAINED ELSEWHERE IN THIS BASE PROSPECTUS AND THE RELEVANT TERM SHEETS.

INVESTMENTS IN THE STRUCTURED WARRANTS INVOLVE DIFFERENT RISKS INCLUDING MARKET RISK, LIQUIDITY RISK, CREDIT RISK AND THE RISK THAT YOU MAY SUSTAIN TOTAL LOSS OF YOUR INVESTMENT IN THE STRUCTURED WARRANTS.

YOU SHOULD CONSIDER CAREFULLY WHETHER THE STRUCTURED WARRANTS ARE SUITABLE FOR YOU TAKING INTO ACCOUNT YOUR EXPERIENCE, OBJECTIVES, FINANCIAL POSITION AND OTHER RELEVANT CIRCUMSTANCES. YOU SHOULD POSSESS ADEQUATE KNOWLEDGE OF THE STRUCTURED WARRANTS BEFORE INVESTING.

4.1 RISKS RELATING TO THE ISSUER

4.1.1 Credit risk

Each Structured Warrant is a contract between us and the Warrantholder and of no other persons. Our obligations in respect of the Structured Warrant represent general unsecured contractual obligations, which will rank equal with other existing and future general contractual obligations. If you purchase the Structured Warrants, you should note that you would be relying on the creditworthiness of our Company alone. You have no rights or recourse under the Structured Warrants against the Underlying Companies, the trustee or manager of the Underlying ETF, the Underlying Index Sponsor or any company forming part of any indices to which the Structured Warrants relate.

You must therefore make your own assessments of the credit risk associated with KIBB, and our ability to perform our obligations in respect of the Structured Warrants. Our ability to perform our obligations in respect of the Structured Warrants primarily depends on our financial condition and business prospects, which is in turn dependent on the underlying characteristics of the businesses of our Group and the commercial risks which we are exposed to. Details on our Group's key businesses, our risk management and KIBB's credit rating profile are set out in Sections 6.1.2, 6.7 and 6.1.3 respectively of this Base Prospectus. In addition, a summary of our historical financial information is set out in Section 6.9 herein.

You should note, however, that credit ratings assigned by rating agency reflect their opinion on credit risk, which is only one aspect of your investment decision, and ratings are subject to change. Any downgrading of our credit ratings could result in a reduction in the value of the Structured Warrants, and you should not construe the credit ratings as investment advice nor a recommendation to invest in the Structured Warrants.

4.1.2 Trading by KIBB Group

KIBB Group may at any time purchase or buy-back the Structured Warrants in the open market or by tender or private treaty and become Warrantholder(s).

Any Structured Warrants purchased may be held or resold and may also be surrendered for cancellation. However, cancellation of the Structured Warrants may only occur if all outstanding Structured Warrants have been purchased by KIBB Group. The following events or circumstances may result in KIBB cancelling the Structured Warrants:

- (i) KIBB be liquidated or dissolved, or a receiver and/or administrator be appointed in respect of the whole or substantially the whole of our undertakings, properties or assets;
- (ii) a merger event, take-over offer, de-listing, nationalisation, insolvency or such other additional disruption event occurs in relation to the relevant Underlying Instruments; or

4. RISK FACTORS (Cont'd)

- (iii) if for reasons beyond our control, it is no longer legal or practical for us to perform our obligations under the Structured Warrants for any reason.

KIBB shall act in its discretion as reasonably deemed fit to do so after considering the merits of the abovementioned events or circumstances. As such, you are advised to refer to Conditions 5, 6, 10 and 11 of Sections (i), (ii), (iv), (v), (vi), (viii) and (xii), Conditions 6, 10 and 11 of Sections (iii) and (vii), Conditions 7, 8, 12 and 13 of Sections (ix) and (xi), and Conditions 8, 12 and 13 of Section (x) of Annexure I – Principal Terms of the Deed Poll for circumstances that may result in the exercise of discretion as reasonably deemed fit by us.

In addition, we may trade in the Structured Warrants, the Underlying Shares or any other securities and financial products relating to any of the Underlying Companies, Underlying ETF or Underlying Index to hedge our position in relation to the Structured Warrants. We or other members of the KIBB Group may also trade in the Structured Warrants as liquidity provider. Other companies within the KIBB Group may also trade in the Structured Warrants, the Underlying Shares or any other securities and financial products relating to any of the Underlying Companies, Underlying ETF or Underlying Index. These trading activities may affect (positively or negatively) the following:

- (i) the price at which the Structured Warrants are traded on Bursa Securities;
- (ii) the price at which the Underlying Shares or the Underlying ETF (as the case may be) are traded on Bursa Securities or other Securities Exchange outside Malaysia; or
- (iii) the price or level at which any other securities and financial products relating to any of the Underlying Companies, Underlying ETF or Underlying Index are traded on Bursa Securities or other Securities Exchange outside Malaysia.

We do not owe the Warrantheolders any fiduciary duty and are not obligated to act in a way that will benefit the Warrantheolders. Any profit earned and any loss incurred by us in our trading of the Structured Warrants, the Underlying Shares or any other securities and financial products relating to any of the Underlying Companies, Underlying ETF or Underlying Index will accrue entirely to us independently of our obligations as the issuer of the Structured Warrants.

4.1.3 Exercise of discretion as reasonably deemed fit by us

You should note that we may exercise our discretion to make adjustments as reasonably deemed fit, which could affect the value of the Structured Warrants.

Such adjustments include those to the Exercise price and/or Exercise Ratio of the Structured Warrants in circumstances contemplated under the Conditions, for instance in the event of rights issue, bonus issue, subdivision or consolidation of the Underlying Shares and capital repayment. You are advised to refer to Condition 5 of Sections (i), (ii), (iii), (iv), (v), (vi), (vii), (viii) and (xii) and Condition 7 of Sections (ix), (x) and (xi) of Annexure I – Principal Terms of the Deed Poll, and the relevant Term Sheets to be issued for circumstances that may result in an adjustment to the Exercise price and/or Exercise Ratio of the Structured Warrants as reasonably deemed fit by us.

In addition, in the event of a market disruption or settlement disruption, we may exercise our discretion to determine the reference price, exchange rate and/or valuation period in respect of the Structured Warrants as reasonably deemed fit under the Conditions and, consequently, this may adversely affect the Cash Settlement Amount. You are advised to refer to Conditions 2 and 4 of Sections (i), (ii), (iii), (iv), (v), (vi), (vii), (viii) and (xii) as well as Conditions 2, 5 and 6 of Sections (ix), (x) and (xi) of Annexure I – Principal Terms of the Deed Poll, and the relevant Term Sheets to be issued for more details relating to the effects of the occurrence of a market disruption event or a settlement disruption event.

4. RISK FACTORS (Cont'd)

Warrantholders do not have the power to direct us concerning the exercise of any discretion, although in some cases, we may only exercise certain discretions as reasonably deemed fit. Additionally, the rights attached to the Structured Warrants (other than the Exercise price or the formula for the adjustment of the Exercise price or the Exercise Ratio) may not be modified except in accordance with the Conditions.

4.1.4 No investigation or review performed on the Underlying Companies or the Underlying ETF or the Underlying Index Sponsor or the companies constituting the Underlying Index

We have not performed any investigation or review of the business operations and prospects of the Underlying Companies. We have also not performed any investigation or review of the Underlying ETF, the Underlying Index Sponsor or the companies constituting the Underlying Index. Therefore, you should not assume that the issuance of Structured Warrants represents a recommendation by us of investing in the Underlying Companies, the Underlying ETF, the Underlying Index or the companies constituting the Underlying Index.

In addition, you should be aware that the Underlying Companies, the Underlying Index Sponsor or the companies constituting the Underlying Index will not participate in establishing the Conditions. Further, the Underlying Companies, the Underlying Index Sponsor, or the companies constituting the Underlying Index have no obligation with respect to the settlement amount to be paid to you (if any) upon exercise of the Structured Warrants, including any obligation to take into account, for any reason, our needs, or your needs.

In addition, you should be aware that the trustee, custodian, manager, registrar, service agent, participating dealer or other persons involved in constituting or the listing or trading of the Underlying ETF will not participate in establishing the Conditions. Further, such persons have no obligation with respect to the settlement amount to be paid to you (if any) upon exercise of the Structured Warrants, including any obligation to take into account, for any reason, our needs, or your needs.

As such, you should make your own independent assessment and evaluation of the Structured Warrants, the Underlying Companies, the Underlying ETF, the Underlying Index or the companies constituting the Underlying Index or consult your own independent investment adviser.

4.1.5 Potential and actual conflict of interest situations arising from the business activities of the KIBB Group

KIBB Group is involved in a wide range of investment banking, securities broking, corporate advisory, fund management, and other activities for its proprietary accounts and/or for accounts under its management. In connection with the offering of any Structured Warrants, we may also enter into hedging transactions with respect to the Underlying Instruments. These transactions in the Underlying Instruments or related derivatives may affect the market price or liquidity of the relevant Structured Warrants and therefore affect the interests of Warrantholders.

In the ordinary course of business of the KIBB Group, we may also possess or acquire material information about the Underlying Instruments.

The above activities may affect the value of the Underlying Instruments in a manner which may consequently affect the value of the relevant Structured Warrants. Such actions and conflicts may include without limitation, the purchase and sale of securities and financial advisory relationships. We may also issue other derivative instruments in respect of the same Underlying Instrument which may compete with the Structured Warrants and may affect the price of the Structured Warrants. KIBB Group has no obligation to disclose such information about the Underlying Instrument or such activities unless it is required by the laws and regulations.

The aforesaid risk is mitigated in view of the following:

4. RISK FACTORS *(Cont'd)*

- (i) KIBB Group has established proper internal controls through the adoption and implementation of group-wide policies and procedures which include the Group Chinese Wall Policy and *Group Conflict Management Policy*[^]. These policies require employees to ensure that, amongst others, all data and information that are sensitive and confidential are to be kept within the relevant divisions or departments only and that there is clear segregation between different divisions or departments, and further, that all sensitive and confidentiality information are shared only on a need-to-know basis. In addition, prior to the issuance of Structured Warrants, conflict check is performed with the Group Compliance and Ethics and Group Legal to ensure that the Structured Warrants are issued independently and in compliance with the existing policies and procedures, as well as the applicable regulatory requirements; and
- (ii) KIBB Group is licensed under the BNM and the SC, and is governed by the FSA and the CMSA to comply with strict policies, regulations and guidelines issued (from time to time) by the BNM, the SC and the Bursa Securities with regards to managing any potential conflict of interest situation.

Note:

[^] *The Group Conflict Management Policy sets out matters pertaining to conflict of interests management within KIBB Group to ensure that KIBB Group's businesses and operations are done in compliance with proper standards of ethics and integrity.*

4.1.6 Take-over, scheme of arrangement, merger, amalgamation, reconstruction, liquidation, dissolution or winding-up of the Issuer

Should we be liquidated or dissolved, or a receiver and/or administrator be appointed in respect of the whole or substantially the whole of our undertakings, properties or assets, the Structured Warrants shall be deemed to be exercised on the Market Day immediately prior to the date of such liquidation, dissolution, winding-up or appointment of receiver and/or administrator and settled in cash as determined by us subject to the terms of the Deed Poll. Hence, there is a risk that the Structured Warrants may be cancelled before the relevant Expiry date of such Structured Warrants and cause you to suffer a loss or a reduced profit.

In the event that we undertake a take-over or a scheme of arrangement, or any other events or reorganisation having similar effects as a take-over or scheme of arrangement on the rights of the Warranholders, we may exercise our discretion to deal with the Structured Warrants in such manner as we may reasonably deem fit in the circumstances contemplated under the Conditions including adjustments to the rights attached to the relevant Structured Warrants. Such adjustments may adversely affect your investment in the Structured Warrants.

In the event we are involved in a merger, amalgamation or reconstruction, the corporation, trust or other body into which we are merged, amalgamated, or reconstructed shall assume all our liabilities and obligations as an issuer in respect of the Structured Warrants so that the rights of the Warranholders shall continue to exist and be enforceable to the same extent as provided under the Deed Poll. In such case, you will face the credit risk of such corporation, trust or other body instead of us.

You are advised to refer to Condition 10 of Sections (i), (ii), (iii), (iv), (v), (vi), (vii), (viii) and (xii) and Condition 12 of Sections (ix), (x) and (xi) of Annexure I – Principal Terms of the Deed Poll, and the relevant Term Sheets to be issued for more details relating to such events.

4.2 RISKS RELATING TO THE STRUCTURED WARRANTS

Generally, Structured Warrants can be volatile instruments and tend to decline in value over time. They are subject to a number of risks as set out below:

4. RISK FACTORS (Cont'd)

4.2.1 General investment risks

If you are considering acquiring the Structured Warrants, it is recommended that you should have experience in warrant or option transactions and should reach an investment decision only after carefully considering, with your adviser, the suitability of the Structured Warrants for you. The Structured Warrants are considered to be suitable only for those who understand the risks involved and are prepared to sustain a complete loss of the subscription price paid for the Structured Warrants or in the case of Bull ELS, end up with Underlying Shares with a value lower than the subscription price paid for the Bull ELS.

An investment in the Structured Warrants is not the same as having a direct investment in the Underlying Shares, Underlying ETF or shares of companies constituting the Underlying Index. The market price of Structured Warrants is linked to the market price/level of the relevant Underlying Instruments and will be influenced (positively and negatively) by them. Further, the changes between the market price of the Structured Warrants and the market price/level of the Underlying Instruments may not be directly correlated and may be disproportionate. Fluctuations in the price/level of the Underlying Instruments will affect the price of the Structured Warrants but not necessarily in the same magnitude and direction. Where the Underlying Shares are components of a basket comprising various shares, fluctuations in the price of one component item in such basket may be offset or intensified by fluctuations in the price of the other component items comprising the relevant basket.

The price of the Structured Warrants may fall in value as rapidly as it may rise and you may sustain a total loss of your investment. If the Cash Settlement Amount at expiry or upon a Mandatory Call Event is less than or equal to zero, you will lose the entire value of your investment. In particular for CBBs, you will not be able to profit from the subsequent price movement of the Underlying Instruments.

The leverage provided by investing in the Structured Warrants means that a small percentage of change in the price or level of the Underlying Instruments may result in a larger percentage of change in the price of the Structured Warrants, and therefore the risk of investment may be greater than in the case of investing the same amount in the Underlying Instruments.

You should therefore consider carefully whether the Structured Warrants is suitable for you in light of your circumstances and financial position and only invest in the Structured Warrants after understanding the risks fully.

4.2.2 Factors affecting the price of the Structured Warrants

The price at which the Structured Warrants trade on Bursa Securities depends on, amongst others:

- the Exercise price/Exercise level of the Structured Warrants;
- the bid-offer price, volatility and liquidity of the Underlying Shares or Underlying ETF;
- the general performance of the Underlying Index;
- the time remaining to expiration;
- changes in interim interest rates and dividend yields of the Underlying Companies.

There is no assurance that the market price of the Structured Warrants will, upon and after the Listing, be equal to or exceed the price paid by investors.

The trading price of the Underlying Shares or Underlying ETF is affected by their trading activity which is, in turn, influenced by the operational and financial conditions, future prospects and business strategy of the Underlying Companies or the decisions and actions of the manager or trustee of the Underlying ETF (as the case may be), as well as changes in the regulatory and economic environment. Additionally, the level of the Underlying Index may vary over time, as it is based on the performance of the companies constituting the Underlying Index. Therefore,

4. RISK FACTORS (Cont'd)

you are warned that the price of the Structured Warrants may fall in value as rapidly as it may rise. Changes in the price of the Underlying Shares and Underlying ETF or the level of the Underlying Index can be unpredictable, sudden and large, and such changes may result in the price of the Structured Warrants to move in a direction which may have a negative impact on the return of your investment. If the price of the Underlying Shares or Underlying ETF or the level of the Underlying Index does not move in the anticipated direction, it will negatively impact the return on your investment. The loss, however, will be limited to the subscription price paid for the Structured Warrants and any relevant transaction costs.

In addition to the above, investing in Bull ELS involves risk arising from the fluctuations in the price of the Underlying Shares, which may be significant and unpredictable. The price of the Underlying Shares may be affected by, amongst others, the financial condition, results of operations and prospects of the relevant Underlying Company. In particular, investors in the Bull ELS should recognise the risk that the price of the Underlying Shares may fall below the strike price and, consequently, the possibility that the Bull ELS may expire worthless or may be settled by delivery of the Underlying Shares, the market value of which could be equal or lower than the Strike price.

Bursa Securities applies measures known as dynamic price limits aimed at preventing sudden fluctuation in price movement of securities trading on Bursa Securities, including the Structured Warrants. The dynamic price limits comprise of upper and lower thresholds and is continually updated based on a deviation of a percentage or absolute value from the last done prices of Structured Warrants during the main trading phase throughout the day. When an incoming Structured Warrants order is entered at a price outside of the prescribed dynamic price limits, the incoming order will be rejected and removed by the trading system.

You should therefore consider the above factors together with the related transaction costs carefully before dealing in the Structured Warrants.

4.2.3 Time decay

Structured Warrants have Expiry dates and therefore, a limited life, and the Cash Settlement Amount of the Structured Warrants at any time prior to expiration may be less than the trading price of such Structured Warrants at that time. The difference between the trading price and the settlement amount will reflect, amongst others, a "time value" of the Structured Warrants, which will in turn depend upon factors such as the length of the period remaining to expiration and the expectations concerning the range of possible future price/level of the Underlying Instruments.

Structured Warrants are generally more valuable when the remaining life of the Structured Warrants are longer. In the case of CBBCs, the lifespan may be shorter if a Mandatory Call Event occurs before the Expiry date, in which case, such CBBCs will be called and terminated immediately. When CBBCs are called and terminated early, you will lose the funding cost (the interest paid by investors to the Issuer for borrowing money (for Callable bull certificates) or stocks (for Callable bear certificates) for investment) for the remaining period and will not benefit from subsequent price/level movement of the underlying instrument.

If the Cash Settlement Amount on Expiry date after deducting all incidental expenses is greater than zero, the outstanding Structured Warrants will be automatically exercised. However, if the Cash Settlement Amount on Expiry date after deducting all incidental expenses is equal to or less than zero, all outstanding Structured Warrants will cease to be valid without any payment made to the Warrantholders.

After expiry, the Structured Warrants will cease to be traded and can no longer be exercised, hence will cease to have any value. It is possible that the Structured Warrants will expire without the Warrantholders' expectations being realised.

As such, the Structured Warrants should not be viewed as suitable for long-term investments.

4. RISK FACTORS (Cont'd)

4.2.4 Warrantheolders do not have similar rights as the holders of the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index

Structured Warrants which are cash-settled do not confer on the Warrantheolders any rights to the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index. We are not required or under any obligation to purchase, hold or deliver the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index, or any attached rights and benefits.

The physical-settled Bull ELS do not confer Warrantheolders any rights to the Underlying Shares, until and unless, the Underlying Shares have been delivered by us to the Warrantheolders of Bull ELS in accordance with the Conditions. In addition, Bull ELS over foreign Underlying Shares are cash-settled and Warrantheolders of such Bull ELS do not have any rights to the Underlying Shares.

In addition, there are no custody arrangements relating to the Underlying Shares, nor does the Deed Poll create any security interest in favour of the Warrantheolders to secure the payment or settlement obligations arising under the Structured Warrants. Accordingly, if our Company becomes insolvent, Warrantheolders will not have any direct rights over the Underlying Shares, the Underlying ETF or the shares of the companies constituting the Underlying Index or Underlying ETF.

4.2.5 Risk of “European Style” Structured Warrants

European style Structured Warrants are only exercisable on its Expiry date. The price of such Structured Warrants in the secondary market may be traded at a discount (or premium, as the case may be) to its estimated fair value under certain circumstances, including supply and demand factors. Accordingly on the Expiry date, if the Cash Settlement Amount is zero or negative, you will lose the entire value of your investment.

4.2.6 Gearing effect and correlation

The gearing provided by investing in the Structured Warrants (save for the Bull ELS) provides certain degree of leverage to the Warrantheolders where the value of the Structured Warrants may change to an extent greater than the change in the value of the Underlying Instruments. i.e. A small percentage of decrease in the price or level of the Underlying Instruments may result in a significant decrease in the price of the Structured Warrants. As such, the risk of investing in the Structured Warrants may be greater than investing the same amount in the Underlying Instruments due to the gearing/leverage effect of the Structured Warrants. You should therefore understand these risks fully before investing in the Structured Warrants.

There is no assurance that the price of the Structured Warrants will correlate with the movements in price or level of the Underlying Instruments. The Structured Warrants may expire with significantly less value, or of no value at all if the price or level of the Underlying Instrument falls below (for Call warrants and Callable bull certificates) or rises above (for Put warrants and Callable bear certificates) the Exercise price/Exercise level of the Structured Warrants.

4.2.7 Suspension in the trading of the Underlying Instruments and/or Structured Warrants

If the trading in the Underlying Shares or the Underlying ETF is suspended on Bursa Securities or the relevant Securities Exchange outside Malaysia (which is beyond our control), then trading in the Structured Warrants on Bursa Securities may also be suspended for a similar period if Bursa Securities deems such action appropriate in the interest of maintaining a fair and orderly market in the Structured Warrants, or otherwise if Bursa Securities deems such action advisable in the public interest or to protect investors. Further, trading of the Underlying Shares, Underlying ETF, and/or Structured Warrants may also be suspended as a result of take-over offer, compulsory acquisition or a delisting of the Underlying Shares or the Underlying ETF.

4. RISK FACTORS (Cont'd)

In addition, if the trading of options or futures relating to the relevant Underlying Index on any options or futures exchanges is suspended, or if the relevant Underlying Index for whatever reason is not calculated, trading in the relevant Structured Warrants on Bursa Securities may also be suspended for a similar period.

If Bursa Securities does not, in such an event, suspend the trading of the Structured Warrants, we may still request for a suspension in the trading of the Structured Warrants. However, the suspension of the trading of the Structured Warrants, the Underlying Shares or the Underlying ETF on Bursa Securities, or the relevant Securities Exchange outside Malaysia, or the suspension of the trading of the options or futures relating to the relevant Underlying Index on any options or futures exchanges, shall not preclude the Warrantheolders from exercising their rights under the Structured Warrants. In the events of take-over offer or compulsory acquisition or delisting of the Underlying Shares or Underlying ETF, we may also in our discretion as reasonably deemed fit make adjustments to the rights attaching to the Structured Warrants so far as we are reasonably able to do so without materially prejudicing Warrantheolders' rights. Notice of such adjustments will be given to Warrantheolders as soon as practicable in accordance to the Conditions.

You are advised to refer to Condition 2 of Sections (i), (ii), (iii), (iv), (v), (vi), (vii), (viii), (ix), (x), (xi), (xii) of Annexure I – Principal Terms of the Deed Poll for circumstances that may result in the exercise of discretion as reasonably deemed fit by us.

You should be aware that the closing price or levels of the Underlying Instruments for the calculation of the Cash Settlement Amount may vary if you intend to exercise your Structured Warrants during a suspension from trading of the Shares, Underlying ETF, and/or Structured Warrants as a result of take-over offer, compulsory acquisition or a delisting of the Underlying Shares or the Underlying ETF.

4.2.8 Trading liquidity of the Structured Warrants

The Structured Warrants will be issued and subsequently listed on Bursa Securities. As there has been no recent or prior market for a particular series of Structured Warrants before its issuance, there can be no assurance that an active market for that particular series of Structured Warrants will develop upon its listing, or if developed, that such market will sustain throughout the life of the Structured Warrants.

Additionally, although we will be acting as liquidity provider and market maker by providing and maintaining bid and offer prices for the Structured Warrants on the trading system of Bursa Securities, the level of liquidity will depend on competitive forces and the price at which the Structured Warrants will trade on Bursa Securities upon or subsequent to its listing. The parameters for liquidity provision are set out in Section 5.2 of this Base Prospectus.

Furthermore, there will be circumstances under which the liquidity provider may not be able to, and shall not be obliged to, provide bid and offer prices, nor reply to a request for prices. Such circumstances may include, but without limitation, the circumstances described in Section 5.2 of this Base Prospectus. In such circumstances, the level of liquidity of the Structured Warrants may also be negatively impacted.

In addition, the Listing Requirements allow the issuance of Structured Warrants over the Underlying Shares or Underlying ETFs which are listed on a Securities Exchange outside Malaysia for less than 3 calendar months, subject to the Underlying Companies or Underlying ETF having an average daily market capitalisation equivalent to at least RM5 billion. In such cases, there may not be sufficient market information or track record for the Underlying Shares or Underlying ETF prior to the offering of the Structured Warrants.

Furthermore, an active trading market for the Underlying Instruments is not an assurance that an active trading market for the Structured Warrants will be sustained in the future. You may

4. RISK FACTORS *(Cont'd)*

suffer losses as a result of insufficient market and/or inactive market for the Underlying Shares, Underlying ETF and/or the Structured Warrants.

4.2.9 Impact of corporate actions

The price or level of the Underlying Instruments may increase or decrease over time due to various factors including, amongst others, corporate actions by the Underlying Companies (rights issues, issue of shares out of capitalisation of profits or reserves, consolidation or subdivision of share capital), corporate actions by the companies constituting the Underlying Index or corporate actions by the manager or trustee of an Underlying ETF. Certain corporate actions may have a dilutive or concentrative effect on the price of the relevant Underlying Shares or Underlying ETF, which may affect the valuation of the Structured Warrants. The Conditions provide for limited anti-dilution protection via adjustments with a view to maintaining the economic terms of the Structured Warrants and counteract any dilution effect due to a corporate action.

Such corporate actions (such as bonus issue of shares, rights issue of shares, subdivision or consolidation of share capital and capital repayment in cash) require or allow us to make adjustments or amendments to, amongst others, the Exercise price, Exercise level, Call price or Call level of the Structured Warrants, but only to the extent provided for in the Conditions. Such corporate actions include, among others, a subdivision or consolidation of share capital, rights issue of shares, bonus issue of shares, capital repayment in cash (whether in the form of special dividend or otherwise pursuant to the Act), and any other event which may have a dilutive or concentrative or other effect on the theoretical value of the relevant Underlying Instruments. There is no requirement that there should be an adjustment for every corporate action or other events that may affect the Underlying Instruments. Events in respect of which no adjustment is made to the Exercise price, Exercise level, Call price or Call level may cause the Structured Warrants to be out-of-the-money and/or affect the trading price of the Structured Warrants and your returns from the Structured Warrants.

Should any of the following events occur:

- (i) a merger event in respect of the Underlying Shares or Underlying ETF;
- (ii) a take-over offer made in respect of the Underlying Companies;
- (iii) the Underlying Shares or Underlying ETF be delisted;
- (iv) nationalisation of all the relevant Underlying Shares of the Underlying Company, or all or substantially all of the assets of the relevant Underlying Companies;
- (v) the Underlying Companies or the Underlying ETF be liquidated, dissolved or wound-up;
or
- (vi) a liquidator, receiver or administrator be appointed with respect to substantially the whole of the Underlying Companies' assets, to wind-up the Underlying Companies or Underlying ETF;

the outstanding Structured Warrants will be automatically exercised and settled in accordance with the provisions of the Deed Poll. It is possible that the Structured Warrants will be terminated before the Expiry date of the Structured Warrants without the Warrantholders' expectations being realised.

You are advised to refer to Condition 5 of Sections (i), (ii), (iii), (iv), (v), (vi), (vii), (viii) and (xii) and Condition 7 of Sections (ix), (x) and (xi) of Annexure I – Principal Terms of the Deed Poll, and the Term Sheets for events that may cause adjustments, amongst others, the Exercise price, Exercise level, Call price or Call level of the Structured Warrants. You are strongly

4. RISK FACTORS (Cont'd)

advised to understand the effects of such adjustments on your investment in the Structured Warrants.

4.2.10 Delay in or abortion of the Listing

The occurrence of certain events, including but not limited to the following, may cause a delay in or abortion of the Listing for each series of the Structured Warrants on Bursa Securities:

- (i) we are unable to meet the public spread requirement as stipulated by Bursa Securities that each series of the Structured Warrants (other than the Bull ELS) must be held by at least 100 Warranholders holding not less than 1 board lot of the relevant series of Structured Warrants each, or at least 50 Warranholders subscribing for a minimum of RM100,000 each of the relevant series of Structured Warrants; and
- (ii) the minimum total face amount of RM5 million of the Structured Warrants is not met.

The above-mentioned requirement in (i) does not apply to an issuer that provides liquidity for the Structured Warrants via Market Making in accordance with the Listing Requirements. Although we will endeavour to comply with various regulatory requirements, we cannot assure you that there will not be occurrence of events that will cause a delay in or abortion of the Listing.

For Structured Warrants issuance made by way of placement, where you have made payment for the application of the Structured Warrants prior to its Listing, the delay in the Listing of the Structured Warrants may cause an opportunity loss to you, amongst others, where the movement in price of the Underlying Instruments are in your favour and you would not be able to realize the gain in Structured Warrants. In the event that we have to abort the Listing of the Structured Warrants, the monies paid in respect of your application will be returned to you without reimbursement of interest.

4.2.11 KIBB discretion as reasonably deemed fit to determine the Underlying Index level

For Structured Warrants over a single index, certain events relating to an index (including material change in formula or the method of calculating the index or a failure to publish the index) permit us to determine the level of the index based on the formula and method of calculating the index before the occurrence of such events or deem the relevant series of Structured Warrants to be exercised and settled in cash. Therefore, you should be aware that any decision made by us may have an unforeseen adverse impact on the value of your investment.

You are advised to refer to Condition 5 of Sections (iii) and (vii) and Condition 7 of Section (x) of Annexure I – Principal Terms of the Deed Poll for circumstances that may result in the exercise of discretion as reasonably deemed fit by us. For further details on determination of the closing level of an index, including where the index level is not published or otherwise unavailable on the relevant date for the purpose of calculating the closing level, you are advised to refer to Condition 2 of Sections (iii) and (vii) and Condition 5 of Section (x) of Annexure I – Principal Terms of the Deed Poll.

4.2.12 Impact of investment decisions entered by the trustee or management company of the ETF

In the case of Structured Warrants which relate to ETF Units:

- (i) the KIBB Group is not able to control or predict the actions of the trustee or the manager of the relevant Underlying ETF. Neither the trustee nor the manager of the relevant Underlying ETF:
 - (a) is involved in the offer of any KIBB's Structured Warrant in any way; or

4. RISK FACTORS (Cont'd)

- (b) has any obligation to consider the interest of the Warrantheolders of any Structured Warrants in taking any actions that might affect the value of any Structured Warrants.
- (ii) The trustee or manager of the relevant Underlying ETF is responsible for making investment and other trading decisions with respect to the management of the relevant Underlying ETF consistent with its investment objectives and in compliance with the investment restrictions as set out in the constitutive documents of the relevant Underlying ETF. The manner in which the relevant Underlying ETF is managed and the timing of actions may have a significant impact on the performance of the relevant Underlying ETF. Hence, the market price of the relevant ETF Units is also subject to these risks.

As such, the decisions and actions by the trustee or manager of the relevant Underlying ETF may adversely affect the market price of the relevant ETF Units which may, in turn, negatively affect the price of the Structured Warrants.

4.2.13 Tracking error in the price of the Underlying ETF

Changes in the price of the Underlying ETF units may not result in the exact changes in the net asset value per unit of the Underlying ETF and consequently the value of the ETF Structured Warrants. This is due to, amongst others, the following factors:

- (i) the fees and expenses incurred by the Underlying ETF such as transactional expenses and stamp duty incurred; and/or
- (ii) regulatory requirements and policies (for example, where the underlying asset pool, index or market tracked by the Underlying ETF is subject to restricted access).

You may suffer losses if a tracking error has occurred and it negatively affects the value of the ETF Structured Warrants.

4.2.14 Economic and political uncertainties

The financial and business prospects of an Underlying Company may be materially and adversely affected by the change in the economic and political conditions of the countries in which the Underlying Company operates and the Securities Exchange on which the Underlying Company is listed. The same factors may also materially and adversely affect the performance of the Underlying Index or the Underlying ETF, if the constituents of the Underlying Index or Underlying ETF are materially and adversely affected by these factors. Such economic and political uncertainties include but not limited to changes in political leadership, expropriation, nationalisation (transfer of a private asset to a public ownership or state or government owned asset), re-negotiation or nullification of existing contracts, changes in interest rates, methods of taxation and currency exchange rules. Such factors may negatively impact the performance of the Underlying Instruments which may in turn affect the value of the Structured Warrants.

4.2.15 Market disruption and settlement disruption events

You should note that there might be a delay in the determination and payment of the cash settlement or delivery of the physical settlement upon the exercise of the Structured Warrants by the Warrantheolders or upon expiry of the Structured Warrants or upon Mandatory Call Event of the CBCs if there is a market disruption event or a settlement disruption event.

You should also note that, subject to the Conditions, the occurrence of a market disruption event shall grant us the discretion as reasonably deemed fit to determine the reference price, exchange rate and/or valuation period in respect of the Structured Warrants which consequently, may adversely affect the Cash Settlement Amount.

4. RISK FACTORS *(Cont'd)*

You are advised to refer to Conditions 2 and 4 of Sections (i), (ii), (iii), (iv), (v), (vi), (vii), (viii) and (xii) as well as Conditions 2 and 5 of Sections (ix), (x) and (xi) of Annexure I – Principal Terms of the Deed Poll, and the relevant Term Sheets to be issued for more details relating to the effects of the occurrence of a market disruption event or a settlement disruption event.

4.2.16 Exchange rate risk

An investment in our Structured Warrants may involve exchange rate risk where the Underlying Instrument may be denominated in a foreign currency and the Cash Settlement Amount may be converted from a foreign currency into Ringgit Malaysia. Adverse movements in the exchange rate may potentially result in foreign exchange losses, which will be borne by the Warrantheolders. Such losses may reduce the Cash Settlement Amount ultimately received by the Warrantheolders. Exchange rates between currencies are determined by forces of supply and demand in the foreign exchange markets. These forces are, in turn, affected by factors such as international balances of payments and other economic and financial conditions, government intervention in currency markets and currency trading speculation.

Fluctuations in exchange rates, foreign political and economic developments, and the imposition of exchange controls or other foreign governmental law or restrictions may affect the foreign currency market price and the exchange rate which is used in the conversion of Structured Warrants denominated in foreign currency into Ringgit Malaysia. Fluctuations in the exchange rate of any one currency may be offset by fluctuations in the exchange rate of other relevant currencies.

4.3 RISKS RELATING TO THE STRUCTURED WARRANTS OVER CBBCS

4.3.1 General investment risks

If you are considering acquiring any CBBCs, you should have experience in option transactions and should reach your investment decision only after carefully considering, with your adviser, the suitability of the CBBCs to you. **The CBBCs are considered to be suitable only for those who fully understand the risks involved and are prepared to sustain a complete loss of the purchase price paid for the CBBCs.**

The price of the CBBCs may fall in value as rapidly as it may rise and you may sustain a total loss of your investment. In particular, if the Cash Settlement Amount payable at expiry or upon the occurrence of a Mandatory Call Event is less than or equal to zero, you will lose the entire value of your investment. You will not be able to profit from the subsequent price/level movement of the Underlying Instrument from CBBCs that were called and hence terminated.

4.3.2 Mandatory Call Event is irrevocable

The Mandatory Call Event is irrevocable unless it is triggered by the following events:

- (i) system malfunction or other technical errors of the relevant Securities Exchange; or
- (ii) manifest errors caused by the relevant third party price source

In the occurrence of the above event, mutual agreement must be reached between Bursa Securities and KIBB within the time as prescribed in the relevant Term Sheets and the relevant Conditions.

When a mutual agreement is reached between Bursa Securities and KIBB, the triggered Mandatory Call event:

- (i) will be reversed; and
- (ii) any trade cancelled (if any) will be reinstated; and

4. RISK FACTORS (Cont'd)

- (iii) trading of the CBBCs will resume in accordance with the rules prescribed by Bursa Securities from time to time.

If a Mandatory Call Event is triggered and not reversed, the CBBC will be terminated before its Expiry date. If the Cash Settlement Amount payable upon the occurrence of a Mandatory Call Event is less than or equal to zero, you will lose the entire value of your investment. You will not be able to profit from the subsequent price movement of the Underlying Instrument from the CBBC that was called and hence terminated.

You are advised to refer to Condition 4 of Sections (ix), (x) and (xi) of Annexure I – Principal Terms of the Deed Poll, and the relevant Term Sheets to be issued for more details relating to Mandatory Call Event.

4.3.3 Delay in announcement of Mandatory Call Event

We will notify Bursa Securities as soon as practicable by way of announcement after the CBBCs have been called. You should be aware that there may be a delay in the announcement of a Mandatory Call Event due to technical errors or system failures and other factors that are beyond our control and/or control of Bursa Securities.

You may suffer losses as Bursa Securities may cancel the CBBCs trades that are executed after the Mandatory Call Event if the CBBCs are not suspended immediately after a Mandatory Call Event.

4.3.4 Non-recognition of Post Mandatory Call Event trades

After the occurrence of the suspension of trading of the CBBCs and termination of the same due to a Mandatory Call Event, all subsequent trades in the CBBCs executed after the Mandatory Call Event will be cancelled and will not be recognised by us or Bursa Securities.

As such, you may suffer losses or lose any gains on CBBCs held at a time of or traded after a Mandatory Call Event as a result of the suspension of trading and/or non-recognition of trades after the Mandatory Call Event, notwithstanding they may have occurred as a result of any delay, failure, mistake or error in the trading suspension or non-recognition of trades after the Mandatory Call Event).

4.3.5 Fluctuation in the funding cost

CBBC is issued at a price that represents the difference between the initial reference price/level of the Underlying Instruments and the Exercise price/Exercise level of the CBBCs, plus the applicable funding cost. The funding cost is a rate determined by the Issuer based on one or more factors, including the following:

- (i) the Issuer's financing rate (for Callable bull certificates) or the stock borrowing costs (for Callable bear certificates), after adjustments for any expected dividend yields of the Underlying Shares or Underlying ETF; and
- (ii) the profit margin charged by the Issuer for issuing CBBCs.

The funding cost fluctuates throughout the life of the CBBCs. The funding cost of a CBBC may be affected by the supply and demand of the Underlying Instruments being financed or borrowed. The liquidity, the volatility and the risk of hedging the Underlying Instrument at the relevant time may impact the fluctuation in the Issuer's funding cost.

In addition to the factors mentioned, the funding cost will also depend partly on prevailing market interest rates and the remaining time to expiry of the CBBCs. The funding cost typically declines over time as each CBBC moves towards expiry. The purchase price paid by you for the CBBCs will include such funding cost.

4. RISK FACTORS (Cont'd)

When a Mandatory Call Event occurs, you may suffer losses as the Cash Settlement Amount (if any) may not contain a refund of any part of such funding cost. Therefore, the longer remaining period to expiry and/or the higher the prevailing market interest rate, the greater the funding cost element of the CBBCs will be.

4.3.6 Hedging and unwinding of hedging activities may affect the value of CBBCs

Our trading or hedging activities or those of our Group or other financial instruments issued by us from time to time may have an impact on the price/level of the Underlying Instruments and may trigger the Mandatory Call Event.

In particular, when the price/level of the Underlying Instruments is trading close to the Call price/Call level, our unwinding activities may cause a fall or rise in (as the case may be) the price/level of the Underlying Instruments, leading to a Mandatory Call Event as a result of such unwinding activities.

Before the occurrence of Mandatory Call Event, we or our related parties may unwind our hedging transactions relating to the CBBCs in proportion to the amount of CBBCs we repurchase from the market from time to time.

Apart from the above, at the occurrence of a Mandatory Call Event, we or our related parties may unwind any hedging transactions in relation to the CBBCs. Such unwinding activities after the occurrence of Mandatory Call Event may affect the price/level of the Underlying Instruments and consequently the Cash Settlement Amount for the Warrantholder.

4.3.7 Limited life of the CBBCs

The Structured Warrants have Expiry dates and therefore, a limited life. In the case of CBBCs, the lifespan may even be shorter if a Mandatory Call Event occurs before the Expiry date. A Mandatory Call Event occurs when the price/level of the Underlying Instrument is at or below (in respect of Callable bull certificate) or at or above (in respect of Callable bear certificate) the Call price or Call level during the tenure of the CBBCs. In such event, the CBBCs will be called and terminated immediately and you will receive the Cash Settlement Amount (if any) from us.

You may suffer losses if the CBBCs are called and terminated early, as you will lose the funding cost for the remaining period and will not be able to profit from the subsequent price/level movement of the Underlying Instrument. Additionally, if the Cash Settlement Amount payable at expiry or upon the occurrence of a Mandatory Call Event is less than or equal to zero, you will lose the entire value of your investment.

4.4 OTHER RISKS

4.4.1 Timeliness and limitation of information regarding the Underlying Shares, Underlying ETF and Underlying Index

Certain information such as prices/level of the Underlying Shares, Underlying ETF and Underlying Index may be obtained or extracted from third party sources such as the financial news service provider or financial information network provider. As such, there can be no assurance on the timeliness, accuracy, completeness of disclosure or availability of critical or material information of the Underlying Shares, Underlying ETF and Underlying Index. In addition, even though the Underlying Companies which are listed on relevant Securities Exchange are subject to applicable continuous disclosure requirements, there can be no assurance on the timeliness, accuracy, completeness of disclosure or availability of critical or material information of the Underlying Shares.

Any delay in the transmission, incompleteness or unavailability of information by these third party sources, whether relied by us for the purposes of market making or otherwise, may affect the performance of the Structured Warrants. Investors should also be aware that we have, in

4. RISK FACTORS (Cont'd)

good faith, extracted relevant information and prices from the public or third party sources and have not independently verified such information.

You should make your own enquiries, and where appropriate, obtain prior advice in relation to any investment decision.

4.4.2 Compliance with the relevant laws and regulations by the Underlying Companies or Underlying ETF or Underlying Index Sponsor

We shall endeavour to fully comply with all the relevant laws, rules, regulations, guidelines, requirements or provisions imposed by the relevant authorities in Malaysia for the issuance of the Structured Warrants. However, the failure of the Underlying Companies or Underlying Index Sponsor or the trustee, custodian, manager, registrar, service agent, participating dealer and/or other persons involved in constituting or undertaking the listing or trading of the Underlying ETF, to fully comply with the relevant laws, rules, regulations, guidelines, requirements or provisions imposed by the relevant authorities during the tenure of the Structured Warrants may affect the price and/or performance of the corresponding Underlying Instruments and in turn the price and/or performance of the relevant Structured Warrants. You should make your own enquiries, and where appropriate, obtain prior advice in relation to any investment decision.

4.4.3 Potential tax implications and other transaction costs

In addition to the cost of the Structured Warrants, taxes and other transaction costs such as brokerage fees and clearing fees are incurred when Structured Warrants are bought or sold.

The acquisition and disposal of Structured Warrants normally attracts stamp duty at the prevailing rate as may be prescribed under the Stamp Act 1949. Additionally, the gains derived from investment in Structured Warrants may be subjected to income tax or capital gain tax, which treatment may vary depending on the legal identity of an investor, or the classification of income.

From time to time, taxation laws, regulations and their application are subject to changes, which may affect the potential tax implications at any given time and you may be subject to taxes in relation to your investment in the Structured Warrants that were unexpected at the time of your investment. If you are in doubt about your tax position, you should consult your own independent tax advisers.

If you are in doubt as to the transaction costs to be incurred, you should consult your stockbroker, bank manager, solicitor, accountant or other professional advisers immediately.

4.4.4 Risks related to any possible future outbreaks of disease

You should note that any possible future outbreaks of disease may have a material and adverse effect on the business operations, financial position and prospects of an Underlying Company, the performance of the Underlying Shares, Underlying Index or Underlying ETF and consequently affect the value of the Structured Warrants.

Should there be an outbreak of disease to cause disruptions to global and domestic economic activity, KIBB Group's financial position may be adversely impacted due to lower lending and transaction volumes, impairments on financial instruments caused by equity market volatility, increase in Expected Credit Loss ("ECL") charges, and lower interest income due to lower interest rates implemented by central banks globally. Prolonged and material impact on KIBB Group's financial position may also cause a downward rating in KIBB Group credit rating profile, which could in turn affect the ability to meet our financial commitments as a Structured Warrants Issuer.

As outbreaks of disease may pose risk to our operational resilience, KIBB Group has put in place the necessary Standard Operating Procedures ("SOP") for the possible future outbreaks of disease and fortify the vibrancy of business continuity management ("BCM") of the Group to

4. RISK FACTORS (Cont'd)

ensure the preparedness, responsiveness and robustness in managing this event risk. Amongst others, the controls to mitigate risks to the contagion include precautionary measures involving split-team operations and working-from-home arrangements as well as disaster recovery and contingency plans.

where the equity(ies) and ETF are listed on, and indices are based on Bursa Securities and/or Securities Exchanges outside Malaysia which are members of the World Federation of Exchanges or are approved by Bursa Securities.

The Structured Warrants will be offered from time to time by way of Market Making.

We will issue the Structured Warrants from time to time through this Base Prospectus supported by a Term Sheet to be issued before we issue each series of the Structured Warrants.

Further information on the Offer and the Structured Warrants are set out below and in Annexure 1 of this Base Prospectus respectively.

5.2 Liquidity Provision

The Listing Requirements provides that upon initial listing, there must be at least 100 Warranholders holding not less than 1 board lot of warrants each, or at least 50 Warranholders subscribing for a minimum of RM100,000 of warrants each ("**Minimum Holders Requirement**"), unless the Issuer provides liquidity for the structured warrants via Market Making.

KIBB is a registered Market Maker pursuant to the rules of Bursa Securities and therefore, is not required to fulfil the Minimum Holders Requirement mentioned above.

As an Issuer, it is our business policy to stand by our products by providing liquidity. We are the liquidity provider for the trading of our Structured Warrants on Bursa Securities. As currently stipulated by Bursa Securities, we will maintain a minimum market presence of 80% of trading hours on each day that Bursa Securities is open for trading and a maximum spread between bid and offer prices of ten (10) bids.

5. PARTICULARS OF THE OFFER (*Cont'd*)

The process of providing liquidity involves maintaining bid and offer prices on the trading system of Bursa Securities on each Market Day, over the life of the Structured Warrants. Although we endeavour to provide liquidity for the Structured Warrants on Bursa Securities, the level of liquidity will depend on competitive forces and the price at which the Structured Warrants will trade on Bursa Securities upon or subsequent to its listing. Besides the supply and demand for the Structured Warrants in the secondary market, there are other factors affecting the price of the Structured Warrants such as, without limitation, the underlying unit price, Intrinsic value, dividend expectations, expected volatility, prevailing interest rates and the time left to the expiry of the Structured Warrants.

As a liquidity provider, we would need to maintain a certain number of Structured Warrants as inventory for the purposes of liquidity provision during the tenure of the Structured Warrants. The minimum quantity of structured warrants for which liquidity will be provided is 50 board lots (5,000 units of Structured Warrants). We may during the tenure of the Base Prospectus issue additional Structured Warrants in a particular series subject to the approval of Bursa Securities.

However, you should note that there would be circumstances under which we are unable and could not be obliged to provide liquidity, due to reasons beyond our control. Such circumstances may include the occurrence or existence of one (1) or more of the following events:

- (i) During the pre-opening session, ten (10) minutes following the opening of Bursa Securities on any trading day or any other circumstances as may be prescribed by Bursa Securities from time to time;
- (ii) During the pre-closing session, last ten (10) minutes prior to the close of a trading session on any trading day or any other circumstances as may be prescribed by Bursa Securities from time to time;
- (iii) Upon the occurrence of a Mandatory Call Event;
- (iv) When trading in the Underlying Instrument or index futures is suspended or limited in a material way for any reason; for the avoidance of doubt, the liquidity provider is not obliged to provide quotations for the Structured Warrants at any time when the Underlying Instrument or relevant index futures is not traded for any reason;
- (v) When the Structured Warrants and/or the Underlying Instrument are suspended or limited in a material way for any reason;
- (vi) When the number of Structured Warrants available for Market Making activities by the liquidity provider is less than 5% of the total issue size of the Structured Warrants; for the avoidance of doubt, Structured Warrants held by us or any of our affiliates in a fiduciary or agency capacity are not Structured Warrants available for Market Making activities;
- (vii) During the five (5) Market Days immediately preceding the Expiry Date;
- (viii) When technical problems or other events beyond the control of the liquidity provider (such as a natural or man-made disaster or an act of terrorism) affect the ability of liquidity provider to provide bid and offer prices;
- (ix) If the stock market and/or the Underlying Instrument experience exceptional price movement and volatility;
- (x) If a market disruption event occurs, including without limitation any suspension of or limitation imposed on trading (by reason of movements in price exceeding limits permitted by the relevant exchange or otherwise) in the Underlying Instrument or any Structured Warrants, option contracts or futures contracts relating to the Underlying Instrument;

5. PARTICULARS OF THE OFFER (*Cont'd*)

- (xi) When the ability of the liquidity provider to source a hedge or unwind an existing hedge, as determined by the liquidity provider in good faith, is materially affected by the prevailing market conditions;
- (xii) If each Structured Warrant is theoretically valueless or where the Issuer's bid price is below RM0.005. In such an instance, the liquidity provider will provide the offer price only;
- (xiii) If, in our sole and absolute determination, the theoretical bid/offer price of the Structured Warrants is less than the minimum price or greater than the maximum price that can be entered into or accepted by the trading system of Bursa Securities through which the liquidity provider enters orders for the Structured Warrants for the purpose of providing liquidity;
- (xiv) In the case of an Underlying Index, any modification, cancellation or disruption of the calculation of the Underlying Index (other than as result of a market disruption event);
- (xv) In the case of Put warrants, our ability to perform short-selling in the market becomes restricted or prohibited;
- (xvi) When it is a public holiday in Malaysia and Bursa Securities is not open for trading; or
- (xvii) Any circumstances as may be allowed by Bursa Securities and/or the SC.

Although the liquidity provider will be facilitating Market Making activities to provide liquidity for the Structured Warrants on Bursa Securities, the level of liquidity will depend on the performance of the Structured Warrants market and the price at which the Structured Warrants will trade on Bursa Securities upon or subsequent to its listing.

You may obtain bid/offer prices for the Structured Warrants (in respect of prices that appear on the trading system of Bursa Securities, and/or in respect of direct business transactions) from us at the following contact details:

Equity Derivatives
Telephone no.: (03)-2172 2615

5.3 Further Issue

The Deed Poll allows us to create and issue further Structured Warrants in respect of the same series of Structured Warrants pursuant to the Base Prospectus ("**Further Issue**") without the consent or sanction of the existing Warrantholders. The Further Issue will form part of the existing Structured Warrants in issue ("**Existing Issue**").

For the purpose of facilitating Market Making, we may apply for a Further Issue in respect of the Structured Warrants subject to the following conditions:

- (i) the Further Issue is for the purpose of facilitating Market Making;
- (ii) the terms and conditions of the Existing Issue either permit the Further Issue or have been properly amended to give us the right to issue and list one or more Further Issues;
- (iii) the terms and conditions of the Further Issue and the Existing Issue must be identical except for the size and tenure of the issue; and
- (iv) the Issuer holds not more than 50% of the Existing Issue at the time of application for the Further Issue.

5. PARTICULARS OF THE OFFER *(Cont'd)*

5.4 Purpose of the Offer

The purpose of the Offer is to participate and contribute to the development of Structured Warrants market in Malaysia. It is also part of our objectives to diversify our revenue sources via the issuance of Structured Warrants because of the growth potential in Malaysia capital market.

The trading of Structured Warrants also enables us to earn revenue in which the proceeds from the Offer will be utilised for our general working capital requirements and to defray expenses for the Offer.

In general terms, these provisions regulate the acquisition and effective control of Malaysian companies, in particular public companies. You should consider the implications of these provisions before you buy Bull ELS.

6. INFORMATION ON KIBB (Cont'd)

6.1 HISTORY AND BUSINESS

6.1.1 History and Background

Our Company was incorporated in Malaysia under the Act on 6 September 1973 as a private company under the name 'K & N Kenanga Sdn'. The Company was subsequently converted to a private limited company under the name 'K & N Kenanga Sdn Bhd' on 10 May 1975. Following the conversion to a public limited company on 7 December 1995, the Company's name was changed to 'K & N Kenanga Bhd'. The Company assumed its present name, 'Kenanga Investment Bank Berhad' since 5 January 2007 when it was granted investment bank status. The Company is a financial institution under the FSA and is regulated by BNM, the SC and Bursa Securities.

On 7 June 1994, our holding company, K & N was incorporated following a restructuring exercise which involved the acquisition of the entire issued and paid-up share capital of KIBB by K & N via the issuance of new ordinary shares of RM1.00 each in K & N to the existing shareholders of KIBB. Upon completion of the exercise, KIBB became a wholly-owned subsidiary of K & N. Subsequently, K & N was listed on the Main Board of Bursa Securities on 8 October 1996.

In May 2002, we were granted universal broker status by the SC. On 13 October 2005, BNM and the SC jointly announced that the framework on investment banks was to be extended to universal brokers. It can be detrimental if risk management is not managed especially against a backdrop of rapidly changing financial landscape and increased uncertainty. It is important that KIBB Group is able to respond to changes in the operating environment and developments in line with its business strategies.

Group Risk Management division (“**GRM**”) has developed an enterprise risk management framework as a pillar that encapsulates the risk management guidelines and practices that are prescribed by BNM, SC and Bursa Securities. The framework is a foundation that sets out other risk guidelines and sound practices on risk management issued by GRM. It focuses on applying the principles of sound corporate governance to the assessment and management of risks to ensure that risk taking activities are aligned with the KIBB Group’s capacity to absorb losses and its long-term viability. It is a reference and guide to other risk functions of the KIBB Group in designing their individual risk procedures and policies. Existing risk management guidelines and procedures by business units are in place to manage and monitor the day-to-day operations. The risk governance structure in the framework defines the roles and responsibilities throughout the KIBB Group to ensure accountability and ownership.

GRM Structure

Risk Governance

GRM provides oversight functions and independent monitoring of business activities and reporting to management, Group Risk Committee (“GRC”), Group Board Risk Committee (“GBRC”) which comprises Non-Executive Directors of KIBB and the Board. GRM works closely with all business units and support departments to ensure risks have been appropriately identified and managed, help with implementation of internal controls and collection of information to create an enterprise view of risks.

The key roles and responsibilities of GRM includes the development of risk frameworks, policies and procedures, risk management methodologies and risk limits, risk analytics, independent credit assessments, risk monitoring and reporting. The GBRC is a Board delegated authority to identify, assess, manage and control different types of risks affecting the Group, which include credit risk, market risk, operational risk, liquidity risk, technology risk and other significant risks.

The Board establishes the Group’s risk appetite and tolerance levels in line with the Group’s overall business objectives and desired risk profile, and retains ultimate responsibility for the oversight of risk management across the Group.

The Board, through the GBRC ensures that the Group’s activities are conducted in accordance with its approved risk appetite, strategies, policies and that risk management functions at all levels operate effectively and in compliance with applicable legal and regulatory requirements imposed by BNM, SC and Bursa Securities. To support the GBRC, the GRC comprising members of senior management, provides a forum to deliberate on and review the

management of risks and to make recommendations to the GBRC. The GRC meets on monthly basis to discuss specific risk exposures which are monitored, reviewed and subsequently reported to the GBRC and the Board.

To ensure standardised and consistent approach to risk management across the KIBB Group, all risk management practices within the KIBB Group are required to conform to the KIBB Group's Enterprise Risk Management Framework.

The principal risks to which we are exposed to and how they are managed are as follows:

Market risk

Market risk is defined broadly as any fluctuation in the market value of a trading or investment position arising from movements in market risk factors such as interest rates, currency exchange rates, credit spreads, equity prices and their associated volatility that could affect the performance and return of the Structured Warrants. While conducting investment banking business, the KIBB Group enters into a variety of transactions in different markets such as equity, bond, foreign exchange and derivatives. In general, we manage our market risk exposure as a portfolio by employing a variety of strategies.

In managing the market risk exposure as a portfolio, our traders may purchase, trade or maintain the Underlying Shares or Underlying ETF or derivatives (whether over-the-counter or listed) to hedge the market risk arising from the issuance of Structured Warrants.

These hedging activities may occur from time to time before the Structured Warrants mature and will depend on market conditions, the value of the Underlying Shares, and the scope of our market making activities in respect of the Structured Warrants.

Market risk limits such as position limits and options limit that were approved by the risk committees and/or Board are communicated to the relevant staff of each business division via the limits policy, and GRM would monitor the risk position accordingly in relation to the limit policy/framework.

Credit risk

Credit risk refers to the risk arising from the creditworthiness or losses to be incurred from the failure by the counterparty (such as the issuer of securities or other financial instruments held by the KIBB Group) to perform its contractual obligations to the KIBB Group. The risk is controlled by the application of credit approvals, limits (i.e. trading and share margin financing limit) and monitoring procedures. The credit risk management unit ensures that the risk exposures we undertake match our risk appetite, and that we adhere to proper authorisation. There are policies and procedures such as Credit Control Policy and Group Credit Recovery Policy & Procedure in place to guide sound credit risk management practices including the handling of problematic credit exposures identified by business units and the management. Proactive measures are taken, where possible, to minimise the financial losses that such exposure may bring to the KIBB Group. Any credit limit breaches will be brought to the attention of the GBRC and Board on a timely and systematic manner so that effective remedial actions can be taken to prevent or minimise any potential damage.

Credit risk is minimised by only transacting with counterparties that have high creditworthiness. Exposures from trading are monitored on an ongoing basis via an online risk management reporting system. The Group through its Management reviews all significant exposure to individual customers and counterparties and reviews any major concentration of credit risk related to any financial instruments.

Operational risk

Operational risk refers to the risk of loss resulting from inadequate or failed internal process, people, system or from external event which includes legal risk and shariah compliance risk in our day-to-day operations.

There are 3 main operational risk management tools developed in managing operational risk such as:

- (i) Risk and Control Self-Assessment which involves in identifying and assessing risks from its impact and likelihood of occurrence, the overall effectiveness of existing controls/risk mitigations in reducing the likelihood of the risk from occurring and reducing the overall operational impact.
- (ii) Key Risk Indicators which involves collection of data on an on-going basis for early detection of operational control deficiencies and enable timely action to be taken in managing operational risk exposures.
- (iii) Operational Risk Loss Data collection which involves collecting and analysing the operational loss events to identify control weaknesses, underlying causes and introduce controls to strengthen the internal control environment.

Liquidity risk

Liquidity risk is defined as the risk that the Bank is unable to meet its present and future funding needs or regulatory obligations, when they come due, which may adversely affect its daily operations and incur unacceptable losses. The Group actively manages our operating cash flows and the availability of funding so as to ensure that all funding needs are met. As part of our overall prudent liquidity management, the Group maintains minimum standards of risk parameters or indicators such as liquidity coverage ratio, net stable funding ratio, liquidity stress test to withstand liquidity stress and to manage liquidity risk. The risk parameters are monitored and reported to the GRC, the GBRC and Board on a periodic basis to ensure that the Bank's liquidity risk profiles are within the approved limits and risk parameters.

As part of a comprehensive liquidity risk management program, the Bank also developed and maintains a contingency funding plan ("**CFP**"). The CFP helps to ensure that the Bank can prudently and efficiently manage routine and extraordinary fluctuations in liquidity

Technology risk

Technology risk refers to any adverse outcome, damage, financial loss, operations disruption, violation, irregularity or failure arising from the use of or reliance on computer hardware, software, electronic devices, networks and telecommunications systems. These risks can also be associated with systems failures, processing errors, software defects, hardware breakdowns, system capacity insufficiency, network vulnerabilities, control weaknesses, security shortcomings, internal sabotage, espionage, malicious attacks, hacking incidents, fraudulent conduct and defective recovery capabilities.

Technology Risk Management is the continuous end-to-end process of identifying, analysing, evaluating, treating and monitoring technology risks to reduce and maintain risk within a predetermined acceptable level that will enable the Group to minimise the failures or breaches of IT systems, applications, platforms or infrastructure that may occur.

The key risk indicators are reported to the GRC, GBRC and Board on a regular basis i.e. monthly/bi-monthly.

Specific email communication is sent to all employees on the latest regulatory issuances so that they are always updated and kept informed. It is also the employee’s duty to at all times perform his/her responsibilities in a manner that complies with such requirements. Furthermore, supervisors of the employee are to provide appropriate guidance and oversight in this regard.

In managing compliance risk, our Group has developed and maintains proper internal controls and governance process to give effect to the existing regulatory framework through our Company policies and procedures. In order to include the regulatory changes that come into effect, the Company policies and procedures are reviewed at least annually or as and when required. These policies include amongst others, the Group Code of Ethics and Conduct for Employees, Group Chinese Wall Policy and *Group Conflict Management Policy*. As part of the approval and adoption process, these Companies policies and procedures are subjected to the oversight of our senior management to ensure that regulatory and compliance risk are addressed and that our businesses and operations comply with our Group’s ethical standards and guidelines.

Further to the above, the relevant departments also implement the appropriate surveillance systems to review any unusual trading activities and established the necessary operational risk controls such as monitoring the trading activities are conducted within the approved limits set in order to mitigate regulatory compliance risk, in accordance with the Group’s regulatory framework. In addition, these departments also ensure that the employees possess the skills and abilities to effectively execute their roles by providing continuous training to ensure regulatory compliance.

If the Issuer determines, in its sole discretion that on any Valuation Date, a Market Disruption Event (as defined below) has occurred, then the Valuation Date shall be postponed until the first succeeding Market Day on which there is no Market Disruption Event irrespective of whether that postponed Valuation Date would fall on a day that already is or is deemed to be a Valuation Date. ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

(i) **Adjusted Exercise Ratio =**

$$E \quad x \quad \frac{P}{N}$$

(ii) **Adjusted Exercise Price =**

$$X \quad x \quad \frac{P}{N}$$

Where:

X: Existing Exercise Price immediately prior to the Subdivision or Consolidation.

N: The revised number of issued shares after the Subdivision or Consolidation.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

P: The existing number of issued shares immediately prior to the Subdivision or Consolidation.

E: Existing Exercise Ratio immediately prior to the Subdivision or Consolidation.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Exercise Price as the Issuer determines appropriate to account for the dilutive or consolidative effect of the Subdivision or Consolidation.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

(ii) *Rights Issue.* If and whenever the Underlying Company shall, by way of Rights (as defined below), offer new shares for subscription at a fixed subscription price to the holders of existing Underlying Shares pro rata to existing holdings ("**Rights Issue**"), the Exercise Ratio and/or the Exercise Price will be adjusted to take effect on the Market Day immediately following the last day on which an instrument or transfer of such shares could be lodged so that the transferee of the share(s) would qualify for the Rights Issue in accordance with the following formulas:

$$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = \frac{1 + M}{1 + (R/S) \times M}$$

E: Existing Exercise Ratio immediately prior to the Rights Issue.

X: Existing Exercise Price immediately prior to the Rights Issue.

S: Cum-rights share price determined by the closing price on the Securities Exchange on the last Market Day on which the Underlying Shares are traded on a cum-rights basis.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

as the Issuer determines appropriate to account for the dilutive effect of the Rights Issue.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

For the purpose of these Conditions,

“**Rights**” means the Right(s) attached to each existing Underlying Share or needed to acquire one new Underlying Share (as the case may be) which are given to the holders of existing Underlying Shares to subscribe at a fixed subscription price for new Underlying Shares pursuant to the Rights Issue (whether by the exercise of one Right, a part of a Right or an aggregate number of Rights).

- (iii) *Bonus Issue.* If and whenever the Underlying Company shall make a new issue of shares credited as fully paid to the holders of the relevant Underlying Shares generally by way of capitalisation of profits or reserves (other than pursuant to a scrip dividend or similar scheme for the time being operated by the Underlying Company or otherwise in lieu of a cash dividend and without any payment or other consideration being made or given by such holders) (“**Bonus Issue**”), the Exercise Ratio and/or Exercise Price will be adjusted on the Market Day immediately following the last day on which an instrument of transfer could be lodged so that the transferee of the share(s) would qualify for the Bonus Issue in accordance with the following formulas:

$$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = 1 + N$$

E: Existing Exercise Ratio immediately prior to the Bonus Issue.

X: Existing Exercise Price immediately prior to the Bonus Issue.

N: Number of additional Underlying Shares (whether a whole or a fraction) received by a holder of existing Underlying Shares for each Underlying Share held prior to the Bonus Issue.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

- (iv) *Capital Repayment.* If the Underlying Company of the relevant Structured Warrants undertakes a capital repayment in cash whether in the form of special dividend or otherwise (pursuant to the Act or such other corresponding provision in the relevant country in which the Underlying Shares are listed and quoted) during the tenure of the Structured Warrants, the Exercise Price and/or the Exercise Ratio of the Structured Warrants shall be adjusted on the Market Day following the last day on which an instrument of transfer is lodged to enable the transferee of the Shares to qualify for the capital repayment by the amount of the capital repayment, net of taxation, if any.

The Exercise Ratio and Exercise Price for the Structured Warrants shall be adjusted in accordance with the following formula:

- (i) **Adjusted Exercise Ratio =**

$$E \quad \times \quad \frac{(P-D)}{P}$$

- (ii) **Adjusted Exercise Price =**

$$Y \quad \times \quad \frac{(P-D)}{P}$$

Where:

P: Closing price of the Underlying Shares on the last Market Day on which the Underlying Shares are traded on a cum-entitlement basis

D: The capital repayment/special dividend per one (1) Underlying Share held.

Y: Existing Exercise Price immediately prior to the capital repayment/special dividend.

E: Existing Exercise Ratio immediately prior to the capital repayment/special dividend.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Exercise Price as the Issuer determines appropriate to account for the dilutive effect of the capital repayment exercise.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

Notwithstanding the above, if a capital repayment undertaken by the relevant Underlying Company results in a significant change in the business of such Underlying Company or such other circumstances as the Issuer may determine, the Issuer reserves the right, at its sole discretion as reasonably deemed fit and without obligation

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

whatsoever, to terminate the Structured Warrants, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warranholder in respect of each Structured Warrant held by such Warranholder if the Cash Settlement Amount after deducting all Exercise Expenses, is greater than zero (without the Warranholder having to deliver a valid exercise form). The Cash Settlement Amount shall be determined based on the fair market value of the Structured Warrants (as determined by the Issuer) after taking into account the capital repayment exercise less all Exercise Expenses, as determined by the Issuer at its discretion as reasonably deemed fit.

- (i) determine the appropriate adjustment, if any to be made to any one or more of the Conditions to account for the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be and determine the effective date of that adjustment. The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event made by the Securities Exchange;

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

Structured Warrants early by giving notice to the Warranholders in accordance with Condition 9 – *Notices*.

Payment will be made in such manner as shall be notified to the Warranholders in accordance with Condition 9 – *Notices*.

The Further Issue will form part of the existing Structured Warrants in issue (“**Existing Issue**”).

13. Claims

In the event that the Issuer makes the Cash Settlement Amount upon a valid exercise of Structured Warrants by a Warranholder and such Warranholder does not present the cheque for payment within six (6) months from the date of the cheque, the Issuer shall at any time thereafter be at liberty to deal with the said monies in accordance and in compliance with, the requirements of the *Unclaimed Moneys Act, 1965 (Act 370) (revised 2002)* of Malaysia.

If the Issuer determines, in its sole discretion that on any Valuation Date, a Market Disruption Event (as defined below) has occurred, then the Valuation Date shall be postponed until the first succeeding Market Day on which there is no Market Disruption Event irrespective of whether that postponed Valuation Date would fall on a day that already is or is deemed to be a Valuation Date. If the Market Disruption Event continues to occur up to the eighth (8th) Market Day following the original Valuation Date, then the Valuation Date shall be:

- (i) that eighth (8th) Market Day; and

Provided always that:

In the event the Cash Settlement Amount is paid by cheque drawn in favour of the Warranholder, the cheque shall be delivered by ordinary post to the Warranholder's address last recorded in the Record of Depositors at the Warranholder's own risk.

The Cash Settlement Amount less the Exercise Expenses shall be calculated and be payable in the Settlement Currency and rounded down to the nearest two (2) decimal points of the Relevant Currency. The amount of such Cash Settlement Amount shall be final and conclusive and the Issuer shall be discharged from its obligation upon making such payment in accordance with these Conditions.

- (e) *Automatic Exercise.* The Warranholders are not required to serve any notice of exercise. If the Cash Settlement Amount is a positive figure, all Structured Warrants

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

shall be deemed to have been exercised automatically on the Expiry Date. In the event the Cash Settlement Amount is less than or equal to zero, all Structured Warrants shall be deemed to have expired on the Expiry Date and all rights of the Warranholders and the Issuer's obligations with respect to such Structured Warrant shall cease and the Warranholders shall not be entitled to receive any payment from the Issuer in respect of the Structured Warrants.

For the avoidance of doubt, the Warranholders shall not be required to pay or top up the Exercise Expenses as the case may be, where the Cash Settlement Amount after deduction of the Exercise Expenses is equal to or less than zero.

- (f) *Settlement Disruption.* The Issuer's ability to determine and deliver the Cash Settlement Amount is affected by the occurrence of a Settlement Disruption Event. "**Settlement Disruption Event**" refers to the occurrence of any one of the following events:

 - (dd) where the relevant Underlying Shares are denominated in the Relevant Currency, the inability to convert proceeds from the settlement of any of the relevant Underlying Shares traded into the Settlement currency or inability to obtain exchange rate for the Relevant Currency.

If as a result of a Settlement Disruption Event, it is not possible for the Issuer to make payment on the original Settlement Date (as defined below), the Issuer shall use its reasonable endeavours to procure payment as soon as practicable after the original Settlement Date. The Issuer shall not be liable to the Warranholder for any interest in respect of the amount due or any loss or damages that such Warranholder may suffer as a result of the existence of a Settlement Disruption Event.

"**Settlement Date**" means a Market Day and a day upon which payment is made to the Warranholder, on which commercial banks in Malaysia are open for business during the normal business hours.

- (g) *Notification on Expiry.* The Issuer shall notify the Warranholders of the Expiry Date at least two (2) weeks prior to the Expiry Date for Structured Warrants with a tenure of twenty eight (28) days but not more than six (6) months and at least one (1) month prior

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

to the Expiry Date for Structured Warrants with more than six (6) months' tenure or such other period as may be specified by the relevant authority. Such notice shall be given in accordance with Condition 9 – *Notices* stating the Expiry Date and treatment of the Structured Warrants which are not exercised.

5. Adjustments

- (a) Following the declaration by one or more of the Underlying Companies of the terms of any Potential Adjustment Event (as defined below), the Issuer will determine whether such a Potential Adjustment Event has a dilutive, concentrative or other effect on the theoretical value of the relevant Underlying Shares and, if so, the Issuer will:
- (i) make the corresponding adjustment, if any, to any one or more of the conditions of the Structured Warrants as the Issuer determines appropriate to account for that dilutive or concentrative or other effect; and
 - (ii) determine the effective date of that adjustment.

The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustments in respect of such a Potential Adjustment Event made by Bursa Securities and/or such relevant Securities Exchange as determined by the Issuer on which the shares constituting the relevant Underlying Shares comprising the basket are listed and quoted, unless otherwise specified by the Issuer.

“**Potential Adjustment Event**” includes any of the following:

If and whenever any one or more of the Underlying Companies shall subdivide its shares or any class of its outstanding share capital comprised of the relevant Underlying Shares into a greater number of shares (“**Subdivision**”) or consolidate the relevant Underlying

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

Shares or any class of its outstanding share capital comprised of the relevant Underlying Shares into a smaller number of shares (“**Consolidation**”), Exercise Price and/or the Exercise Ratio shall be adjusted on the Market Day on which the relevant Subdivision or Consolidation shall have taken effect in accordance with the following formula:

(i) **Adjusted Exercise Ratio =**

Where:

X: Existing Exercise Price immediately prior to the Subdivision or Consolidation

N: The revised number of issued shares after the Subdivision or Consolidation.

(i) **Adjusted Exercise Ratio =** $\frac{E}{\text{Adjustment Factor}}$

(ii) **Adjusted Exercise Price =** $\frac{X}{\text{Adjustment Factor}}$

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

Where:

$$\text{Adjustment Factor} = \frac{1 + M}{1 + (R/S) \times M}$$

- E: Existing Exercise Ratio immediately prior to the Rights Issue.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

For the purpose of these Conditions,

- (iii) *Bonus Issue.* If and whenever one or more of the Underlying Companies shall make a new issue of shares credited as fully paid to the holders of the relevant Underlying Shares generally by way of capitalisation of profits or reserves (other than pursuant to a scrip dividend or similar scheme for the time being operated by such relevant Underlying Companies or otherwise in lieu of a cash dividend and without any payment or other consideration being made or given by such holders) (**“Bonus Issue”**), the Exercise Ratio and/or Exercise Price will be adjusted on the Market Day immediately following the last day on which an instrument of transfer could be lodged so that the transferee of the share(s) would qualify for the Bonus Issue in accordance with the following formulas:

(i) **Adjusted Exercise Ratio** = $\frac{E}{\text{Adjustment Factor}}$

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

X: Existing Exercise Price immediately prior to the Bonus Issue.

N: Number of additional relevant Underlying Shares (whether a whole or a fraction) received by a holder of existing relevant Underlying Shares for each relevant Underlying Share held prior to the Bonus Issue.

The Exercise Ratio and Exercise Price for the Structured Warrants shall be adjusted in accordance with the following formula:

- (i) **Adjusted Exercise Ratio =**

$$E \quad x \quad \frac{(P-D)}{P}$$

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

Notwithstanding the above, if a capital repayment undertaken by one or more of the Underlying Companies results in a significant change in the business of such Underlying Companies or such other circumstances as the Issuer may determine, the Issuer reserves the right, at its sole discretion as reasonably deemed fit and without obligation whatsoever, to terminate the Structured Warrants, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warranholder in respect of each Structured Warrant held by such Warranholder if the Cash Settlement Amount after deducting all Exercise Expenses, is greater than zero (without the Warranholder having to deliver a valid exercise form). ANNEXURE I PRINCIPAL TERMS OF DEED POLL (*Cont'd*)

(iii) American style non-collateralised cash-settled call/put warrants over a single index

1. Form, Status, Title and Administration

- (a) *Form.* The Structured Warrants are issued in registered form and constituted by the Deed Poll (the expression “**Structured Warrants**” in this context shall, unless otherwise requires, include any further Structured Warrants issued pursuant to Condition 12 – *Further Issues* below). Warranholders are entitled to the benefit of, are subject to and are deemed to have notice of all the conditions in the Deed Poll.
- (b) *Status.* The Structured Warrants and the Issuer’s settlement obligation in respect of the Structured Warrants constitute general and unsecured contractual obligations of the Issuer’s company and of no other person and the Structured Warrants will rank equally among themselves and *pari passu* with all of the Issuer’s other present and future unsecured and subordinated obligations (save for statutorily preferred exceptions).
- (c) *Title.* Each person who is for the time being shown in the records maintained by Bursa Depository as entitled to a particular number of Structured Warrants shall be treated by the Issuer and the Warrant Registrar as the holder and absolute owner of such number of Structured Warrants.
- (d) *Administration.* Subject to all information provided by the subscriber for the Structured Warrants to the Issuer being complete and consistent with the records of Bursa Depository, the Issuer shall within seven (7) Market Days from the date of allotment of the Structured Warrants, cause and procure the Warrant Registrar to notify Bursa Depository of the names of the Warranholders together with such particulars as may be required by Bursa Depository for the purpose of making appropriate entries in the Securities Account of the Warranholders with the applicable Structured Warrants and shall deliver to Bursa Depository the Structured Warrants Certificate registered in the name of Bursa Depository or its nominee company in such manner as may be prescribed by the Rules of Bursa Depository or agreed with Bursa Depository. If, at any time, the information provided by the Warranholders for the Structured Warrants is incorrect or inaccurate or inconsistent with the records of Bursa Depository, the Issuer reserves the right, at its discretion as reasonably deemed fit and without any obligation whatsoever to the Warranholders, to accept, reject or otherwise deal with the Structured Warrants in such manner as it reasonably deems fit in the circumstances. The Warranholders are not entitled to any physical warrant certificates.

2. Structured Warrants Rights and Exercise Expenses

- (a) *Structured Warrants Rights.* Every Exercise Amount (as defined below) of Structured Warrants entitles the Warranholder, upon due exercise and on compliance with Condition 4 – *Exercise* below, the right to receive the payment from the Issuer of the Cash Settlement Amount (as defined below) (if any) in the manner set out in Condition 4 – *Exercise* below.

The “**Cash Settlement Amount**” in respect of the Exercise Amount shall be an amount in cash (if greater than zero) payable in the Settlement Currency and calculated as follows less the Exercise Expenses (as defined below):

For the avoidance of doubt, the Warranholders shall not be required to pay or top up the Exercise Expenses as the case may be, where the Cash Settlement Amount after deduction of the Exercise Expenses is equal to or less than zero.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

In the case of Call Warrants:

$$\text{Cash Settlement Amount} = \text{Exercise Amount} \times \frac{1}{\text{Exercise Ratio}} \times (\text{Closing Level} - \text{Exercise Level}) \times \text{Index Currency Amount} \times \text{Settlement Exchange Rate (if applicable)} - \text{Exercise Expenses}$$

In the case of Put Warrants:

$$\text{Cash Settlement Amount} = \text{Exercise Amount} \times \frac{1}{\text{Exercise Ratio}} \times (\text{Exercise Level} - \text{Closing Level}) \times \text{Index Currency Amount} \times \text{Settlement Exchange Rate (if applicable)} - \text{Exercise Expenses}$$

In the case of the Closing Level and the Exercise Level (as defined below) being quoted in a currency other than RM (as specified in the relevant Term Sheet), the Cash Settlement Amount shall be payable in the Settlement Currency, converted at the prevailing exchange rate as determined by the Issuer, at its discretion as reasonably deemed fit by reference to such source(s) as the Issuer may reasonably determine to be appropriate prior to payment of the Cash Settlement Amount to the Warrantholders.

“**Index Currency Amount**” means the amount of unit currency relating to one (1) integral point of the Underlying Index, as specified in the relevant Term Sheet.

“**Exercise Ratio**” means the number of Structured Warrants to which one (1) Underlying Index relates, subject to any adjustment as may be necessary in accordance with the adjustment conditions set out in Condition 5 – *Adjustments* below and as specified in the relevant Term Sheet.

“**Exercise Amount**” means the number of Structured Warrants held, which may only be exercised in board lots or integral multiples thereof, as specified in the relevant Term Sheet. One (1) board lot comprises one hundred (100) Structured Warrants.

“**Exercise Expenses**” means charges or expenses including taxes or duties which are incurred in respect of or in connection with the exercise of the Structured Warrants. Such expenses shall include without limitation any transaction fee charged by Bursa Depository, stamp duty, processing fee charged by the Warrant Registrar and administrative cost.

Before the Expiry Date, the “**Closing Level**” shall be determined as follows:

- (i) on a receipt of a valid Exercise Notice before 12.30 p.m. of the Exercise Date being a Market Day which is prior to and including the sixth (6th) Market Day immediately before the Expiry Date, the Closing Level will be based on the closing market level of the Underlying Index on the Exercise Date; or
- (ii) on a receipt of a valid Exercise Notice on or after 12.30 p.m. of the Exercise Date being a Market Day which is prior to the sixth (6th) Market Day immediately before the Expiry Date, the Closing Level will be based on the closing market level of the Underlying Index immediately following the Exercise Date; or

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (iii) on a receipt of a valid Exercise Notice on or after 12.30 p.m. of the Exercise Date being a Market Day which falls on the sixth (6th) Market Day immediately before the Expiry Date or at any time during the five (5) Market Days immediately before the Expiry Date, the Closing Level will be based on the Expiry Date Closing Level (as defined below).

On the Expiry Date, the Closing Level ("**Expiry Date Closing Level**") will be based on any one of the following:

- (i) the closing level of the Underlying Index on the Market Day immediately before the Expiry Date; or
- (ii) the final settlement price for settling the corresponding spot month index futures contracts on the Expiry Date; or
- (iii) the average closing levels of the Underlying Index for the five (5) Market Days prior to and including the Market Day immediately before the Expiry Date ("**Valuation Period**").

and as specified by the relevant Term Sheet and subject to the Market Disruption Event (as defined below).

If on the relevant date the Underlying Index Sponsor has not published the Underlying Index for the purpose of calculating the Closing Level, the Closing Level will be the closing market level on the Market Day immediately before the relevant date (subject to the Market Disruption Event as defined below).

Regarding sub-Condition (ii) of Expiry Date Closing Level above, if in the Issuer's discretion as reasonably deemed fit, the final settlement price for settling the corresponding spot-month index futures contracts scheduled to expire on the scheduled Expiry Date is otherwise unavailable on that date, the Expiry Date will be postponed until such final settlement price for settling the corresponding spot-month index futures contracts is published.

For the Underlying Index which is quoted on a Securities Exchange outside Malaysia, the Closing Level and the Exercise Level may be quoted in a currency other than RM, as specified in the relevant Term Sheet.

For the purpose of this section, the Exercise Date (i.e. the Market Day on which the Closing Level for Structured Warrants exercised on or prior to the Expiry Date is based) or any Market Day during the Valuation Period shall be referred to as "**Valuation Date**".

If the Issuer determines, in its sole discretion that on any Valuation Date, a Market Disruption Event (as defined below) has occurred, then the Valuation Date shall be postponed until the first succeeding Market Day on which there is no Market Disruption Event irrespective of whether that postponed Valuation Date would fall on a day that already is or is deemed to be a Valuation Date. If the Market Disruption Event continues to occur up to the eighth (8th) Market Day following the original Valuation Date, then the Valuation Date shall be:

- (i) that eighth (8th) Market Day; and
- (ii) the Issuer shall determine at its discretion as reasonably deemed fit and on the basis of the Issuer's good faith estimate the reference price and/or the

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

exchange rate (if applicable) for that Valuation Date by determining the price of the Underlying Shares and/or the exchange rate (if applicable) based on the prevailing market conditions and other factors as the Issuer may consider relevant.

For the avoidance of doubt, in the event that a Valuation Date is postponed due to the occurrence of a Market Disruption Event, the Closing Level of the Underlying Index for such postponed Valuation Date will be the closing market level of the Underlying Index on the first succeeding Market Day.

“Exercise Level” means in relation to a particular series of Structured Warrants, the Exercise Level is the pre-specified level as determined by the Issuer at which a Warrantholder may exercise the right under such Structured Warrants subject to any adjustment as may be necessary in accordance with the Adjustment Conditions set out in Condition 5 – *Adjustments* below and as specified in the relevant Term Sheet.

“Market Disruption Event” means the occurrence or existence of an event where it is not possible to obtain market prices in respect of a material number of shares comprising the Underlying Index or any material constituent security of the Underlying Index or the Structured Warrants, which includes but is not limited to the following events:

- (i) the occurrence or existence on any Market Day at the time by reference to which the Issuer determines the level of the relevant Underlying Index or the prices of the shares constituting the Underlying Index (**“Relevant Time”**) for such Underlying Index or such shares constituting the Underlying Index or at any time during the one hour period that ends at the Relevant Time for such Underlying Index or such shares constituting the Underlying Index:
 - (aa) of any suspension of a limitation imposed on trading such as:

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

The Issuer shall not be liable to the Warranholders for any losses, costs, expenses or charges incurred due to the mistake, error or omission by the Underlying Index Sponsor (including its agent(s) and delegate(s), as the case may be) in the calculation or compilation of the Underlying Index.

3. Tenure, Exercise Period and Expiry Date

- (a) *Tenure.* The tenure of each series of Structured Warrants will be specified in the relevant Term Sheet.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

Exercise Notice is incomplete or not in proper form by ordinary post to the Warrantholder's address recorded in the Record of Depositors or the Exercise Notice, at the risk of the Warrantholder.

- (c) *Exercise Date.* The Market Day on which the duly completed Exercise Notice is delivered to the Warrant Registrar and in respect of which there is a valid exercise of Structured Warrants, provided that any Exercise Notice is received by the Warrant Registrar after 12.30 p.m. on any Market Day shall be deemed to have been delivered on the next following Market Day.

If in the Issuer's discretion as reasonably deemed fit, there is a Market Disruption Event on the Exercise Date, the Exercise Date shall be the next following Market Day after the Market Disruption Event. If the Market Disruption Event continues to occur up to the eighth (8th) Market Day following the original Exercise Date, then Exercise Date shall be:

- (i) that eighth (8th) Market Day; and
- (ii) the Issuer shall determine in its discretion as reasonably deemed fit and on the basis of its good faith estimate the reference level and/or the exchange rate (if applicable) for the Exercise Date by determining the level of the Underlying Index and/or the exchange rate (if applicable) based on the prevailing market conditions and other factors as the Issuer may consider relevant.

If the Structured Warrants are not earlier exercised, the Expiry Date of the Structured Warrants shall be deemed to be the Exercise Date in accordance with Condition 4(e) – *Automatic Exercise*.

The Exercise Price and/or Exercise Ratio shall be subject to such adjustments as may be necessary as provided in Condition 5 – *Adjustments*.

- (d) *Mode of Exercise.* The Structured Warrants may be exercised by valid delivery to the Warrant Registrar of an Exercise Notice within its business hours (from 9 a.m. to 5 p.m.) during the Exercise Period. The Warrant Registrar shall acknowledge receipt by stamping the date and time of receipt on the Exercise Notice. Delivery of the Exercise Notice shall constitute an irrevocable election and undertaking by the Warrantholder specified in the Exercise Notice to exercise the number of Structured Warrants specified in the Exercise Notice and an irrevocable authority to the Issuer and the Warrant Registrar to deduct the aggregate Exercise Expenses, if any, from the aggregate Cash Settlement Amount.

Provided always that:

- (i) in every case compliance must also be made with the requirements set out in the Exercise Notice and other prevailing statutory requirements for the time being applicable;
- (ii) the Warrantholder shall, if so required by the Warrant Registrar, furnish such evidence, if any, as the Warrant Registrar or the Issuer's directors may require to determine the due execution of the Exercise Notice by or on behalf of the Warrantholder exercising the same. ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (iii) where the Warrantholder does not comply with the procedures or restrictions or conditions relating to the exercise of Structured Warrants, the Exercise Notice and any documents received shall be returned to such Warrantholder by ordinary post to the Warrantholder's address recorded in the Record of Depositors at the risk of the Warrantholder.

Subject to a valid exercise or Automatic Exercise of Structured Warrants in accordance with Condition 4(e) – *Automatic Exercise* below within three (3) Market Days from the Exercise Date and when there is no Settlement Disruption Event (as defined below), the Issuer shall pay the Warrantholder the Cash Settlement Amount (if any). The aggregate Cash Settlement Amount (less the Exercise Expenses) shall be paid by cheque drawn in favour of the Warrantholder or such other mode as may be approved by Bursa Securities and determined by the Issuer no later than seven (7) Market Days following the Exercise Date or Expiry Date (as the case may be). In the event the Cash Settlement Amount is paid by cheque drawn in favour of the Warrantholder, the cheque shall be delivered by ordinary post to the Warrantholder's address last recorded in the Record of Depositors at the Warrantholder's own risk.

The Cash Settlement Amount less the Exercise Expenses shall be calculated and be payable in the Settlement Currency and rounded down to the nearest two (2) decimal points of the Relevant Currency. The amount of such Cash Settlement Amount shall be final and conclusive and the Issuer shall be discharged from its obligation upon making such payment in accordance with these Conditions.

- (e) *Automatic Exercise.* The Warrantholders are not required to serve any notice of exercise. Exercise of the Structured Warrants shall be determined by the Closing Level of the Underlying Index. If the Closing Level of the Underlying Index is greater than (in the case of a series of call Structured Warrants) or less than (in the case of series of put Structured Warrants) the Exercise Level, all Structured Warrants shall be deemed to have been exercised automatically on the Expiry Date. In the event the Closing Level of the Underlying Index is less than or equal to (in the case of a series of call Structured Warrants) or greater than or equal to (in the case of series of put Structured Warrants) the Exercise Level, all Structured Warrants shall be deemed to have expired on the Expiry Date and all rights of the Warrantholders and the Issuer's obligations with respect to such Structured Warrants shall cease and the Warrantholders shall not be entitled to receive any payment from the Issuer in respect of the Structured Warrants.

For the avoidance of doubt, the Warrantholders shall not be required to pay or top up the Exercise Expenses as the case may be, where the Cash Settlement Amount after deduction of the Exercise Expenses is equal to or less than zero.

- (f) *Settlement Disruption.* The Issuer's ability to determine and deliver the Cash Settlement Amount is affected by the occurrence of a Settlement Disruption Event.

"Settlement Disruption Event" refers to the occurrence of any one of the following events:

- (i) when the Issuer experiences technical difficulties in the course of processing a valid exercise of the Structured Warrants; or

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (ii) any other events beyond the Issuer's control which results in:
 - (aa) the inability to procure transfer of funds electronically to a designated bank account for the purpose of payment of the Cash Settlement Amount or the cash settlement for odd lots; or
 - (bb) the inability to obtain market price or exchange rate for the purpose of calculating the Cash Settlement Amount due to any reasons, including a Market Disruption Event; or
 - (cc) the principal clearing and settlement system of dealing in the Underlying Index being unable to settle payments or is unable to clear transfers of the Underlying Index; or
 - (dd) where the Underlying Index is denominated in the Relevant Currency, the inability to convert proceeds from the settlement of any of the Underlying Index traded into the Settlement Currency or inability to obtain exchange rate for the Relevant Currency.

If as a result of a Settlement Disruption Event, it is not possible for the Issuer to make payment on the original Settlement Date (as defined below), the Issuer shall use its reasonable endeavours to procure payment as soon as practicable after the original Settlement Date. The Issuer shall not be liable to the Warrantholder for any interest in respect of the amount due or any loss or damages that such Warrantholder may suffer as a result of the existence of a Settlement Disruption Event.

"Settlement Date" means a Market Day and a day upon which payment is made to the Warrantholder, on which commercial banks in Malaysia are open for business during the normal business hours.

- (g) *Notification on Expiry.* The Issuer shall notify the Warrantholders of the Expiry Date at least two (2) weeks prior to the Expiry Date for Structured Warrants with a tenure of twenty eight (28) days but not more than six (6) months and at least one (1) month prior to the Expiry Date for Structured Warrants with more than six (6) months' tenure or such other period as may be specified by the relevant authority. Such notice shall be given in accordance with Condition 9 – *Notices* stating the Expiry Date and treatment of the Structured Warrants which are not exercised.

5. Adjustments

Subject to the Conditions, the Underlying Index of the relevant Structured Warrants shall from time to time be adjusted in accordance with the following provisions:

- (a) *Successor for the Underlying Index sponsor calculates and reports Underlying Index.*

If the Underlying Index is:

- (i) not calculated and announced by the Underlying Index Sponsor but is calculated and published by a successor to the Underlying Index Sponsor ("**Successor Underlying Index Sponsor**") acceptable to the Issuer; or
- (ii) replaced by a successor index using, in the Issuer's determination, the same or substantially similar formula for and method of calculation as used in the calculation of the Underlying Index,

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

then the Underlying Index will be deemed to be the index so calculated and announced by the Successor Underlying Index Sponsor or that successor index, as the case may be.

- (b) *Modification and cessation of calculation of Underlying Index. If:*
- (i) on or prior to the Valuation Date the Underlying Index Sponsor or if applicable, the Successor Underlying Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating the Underlying Index or in any other way materially modifies the Underlying Index (other than modifications prescribed in that formula or method to maintain the Underlying Index in the event of changes in the constituent stocks, contracts or commodities and other routine events); or
 - (ii) on a Valuation Date the Underlying Index Sponsor or if applicable, the Successor Underlying Index Sponsor fails to calculate and publish the Underlying Index (other than as a result of a Market Disruption Event) ("**Index Disruption**"),

then the Issuer may determine the Closing Level using, in lieu of a published level for the Underlying Index, the level for the Underlying Index as at that Valuation Date as determined by the Issuer in accordance with the formula for and method of calculating the Underlying Index last in effect prior to that change or failure, but using only those shares/commodities that comprised the Underlying Index immediately prior to that change, modification, cancellation or failure (other than those shares that have since ceased to be listed on the relevant Securities Exchange). Alternatively, the Issuer may determine the Closing Level using the closing level of the corresponding spot-month index futures contract, if available.

- (c) *Other Adjustments.* Except as provided in this Condition 5 – *Adjustments*, adjustments will not be made in any other circumstances, subject to the right reserved by the Issuer (such right to be exercised in the Issuer's sole discretion as reasonably deemed fit and without any obligation whatsoever) to make such adjustments as the Issuer believes appropriate in circumstances where an event or events occur which the Issuer believes in its sole discretion (and notwithstanding any prior adjustment made pursuant to the above) should, in the context of the issue of the Structured Warrants and its obligation, give rise to such adjustment is considered by the Issuer not to be materially prejudicial to the Warranholders generally (without considering the circumstances of any individual Warranholder or the tax or other consequences of such adjustment in any particular jurisdictions).
- (d) On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.
- (e) Notwithstanding the foregoing, no adjustments shall be made to the Exercise Ratio and/or Exercise Price if the formula stated in this Condition 5 – *Adjustments* results in an adjustment which would amount to less than two percent (2%) of the Exercise Ratio and/or Exercise Price being changed.
- (f) *Notice of Adjustments.* All determinations made by the Issuer pursuant hereto will be conclusive and binding on the Warranholders. The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

which such adjustment is effective by publication in accordance with Condition 9 – *Notices* within five (5) Market Days of the adjustment being made.

6. Buy-backs and Cancellation

The Issuer and/or any of its subsidiaries or related corporations may at any time purchase or buy-back the Structured Warrants at any price in the open market or by tender or by private treaty, whether in the capacity of a fiduciary or otherwise. Any Structured Warrants so purchased may be held or resold or surrendered for cancellation.

If pursuant to this Condition, the Issuer and/or any of its subsidiaries or related corporations purchase or buy-back any of the Structured Warrants and become the Warrantheholders of and are beneficially entitled to the Structured Warrants, the Issuer and/or any of its subsidiaries or related corporations shall not exercise the voting rights with respect to the Structured Warrants held in any meeting of the Warrantheholders, unless otherwise permitted by applicable laws and requirements.

7. Meetings of Warrantheholders

The Third Schedule of the Deed Poll contains conditions for convening meetings of the Warrantheholders.

Any resolutions to be passed in a meeting of the Warrantheholders shall be first decided by a show of hands unless a poll is demanded in accordance to the Deed Poll.

The Issuer shall within twenty one (21) days after the Issuer's receipt at its registered office of an application by:

- (a) not less than one hundred (100) Warrantheholders of each series of Structured Warrants; or
- (b) at least five (5) Warrantheholders of each series of Structured Warrants holding in aggregate not less than one-tenth (1/10) in number of outstanding Structured Warrants of each series,

whichever is lesser, summon a meeting of the Warrantheholders.

The quorum at any such Warrantheholders' meeting for passing an Ordinary Resolution will be two (2) or more Warrantheholders or proxies holding an aggregate of not less than one-tenth (1/10) in number of outstanding Structured Warrants of each series, while the quorum for passing a Special Resolution shall be two (2) or more Warrantheholders or proxies holding an aggregate more than fifty percent (50%) in number of outstanding Structured Warrants of each series.

A resolution will be a Special Resolution if passed at a meeting of Warrantheholders of a series of Structured Warrants duly convened by a majority consisting of at least seventy five percent (75%) of the votes cast. A resolution will be an Ordinary Resolution if passed at a meeting of Warrantheholders of a series of Structured Warrants duly convened by a majority consisting of more than fifty percent (50%) of the votes cast.

8. Modification of rights

- (a) All or any of the rights for the time being attached to the Structured Warrants (other than the Exercise Level which a Warrantheholder is entitled to or the formula for the

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

adjustment of the Exercise Level or the Exercise Ratio or any other condition, which may be modified in accordance with the provisions as set out in these Conditions) may be altered or abrogated by the Issuer from time to time (whether or not the Issuer is being wound up), and the sanction of a Special Resolution passed at a meeting of the Warranholders held as aforesaid shall be necessary to effect such alteration or abrogation.

- (b) Notwithstanding the above, the Issuer may without the consent of the Warranholders but in accordance with the terms of the Deed Poll, effect any modification to the Structured Warrants or the Deed Poll which, in the opinion of the Issuer, is:
- (i) not materially prejudicial to the interests of the Warranholders; or
 - (ii) of a formal, minor or technical nature; or
 - (iii) necessary or expedient to correct a manifest error, or to comply with mandatory provisions of laws or rules or regulations; or
 - (iv) necessary or expedient to facilitate scripless trading in or exercise of the Structured Warrants or payment by way of electronic funds transfer as approved by the relevant government or statutory authorities in respect of the Structured Warrants to comply with the requirements of or the concessions granted by any relevant government or statutory authorities.

Any such modification shall be binding on all Warranholders and shall be notified by the Issuer to them as soon as practicable thereafter in accordance with Condition 9 – *Notices* but in any event not later than twenty (20) Market Days from the date of such modification.

9. Notices

All notices to the Warranholders will be made by way of either an announcement to Bursa Securities or a notice published in a nationally circulated English daily newspaper. If at any time any announcement to Bursa Securities or publication in such newspaper is not practicable, the notice may be given in such other manner as the Issuer may deem fit from time to time.

A notice is deemed to have been given and served on the date of announcement or publication as the case may be or, if announced or published more than once or on different dates, on the first date on which it is announced or published.

All notices effected in accordance with this Condition shall be deemed to be effective in respect of all persons who become Warranholders after the date the relevant notice is announced or published, as the case may be.

10. Take-Over, Merger, Liquidation, Dissolution or Winding-Up of the Issuer

- (a) In the event of a take-over or a scheme of arrangement or any other form of reorganisation undertaken by the Issuer or any other events having similar effects on the rights of the Warranholders, the Issuer reserves the right in its sole discretion and without any obligation whatsoever to deal with the Structured Warrants in such manner as the Issuer reasonably deem fit in the circumstances and with or without adjustments to the rights attaching to the relevant Structured Warrants.
- (b) In the event of the Issuer's merger, amalgamation or reconstruction, the corporation, trust or other body into which the Issuer is merged, amalgamated, or reconstructed

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

shall assume all the Issuer's liabilities and obligations in respect of the Structured Warrants so that the rights of the Warranholders shall continue to exist and be enforceable to the same extent as provided by the Issuer under the Deed Poll.

- (c) In the event of the Issuer's liquidation, dissolution or winding-up or the appointment of a receiver or administrator or analogous person under any applicable law in respect of the whole or substantially the whole of the Issuer's undertaking, property or assets, the Structured Warrants remaining outstanding shall be deemed to be exercised on the Market Day immediately prior to the date of such liquidation, dissolution, winding-up or appointment as follows:
- (i) all unexercised Structured Warrants shall automatically be exercised without the Warranholders having to deliver a valid Exercise Notice and without notice of automatic exercise being given by the Issuer to the Warranholders:
 - (aa) if the Cash Settlement Amount after deducting all the Exercise Expenses is greater than zero, the Issuer shall make payment of the Cash Settlement Amount to the relevant Warranholder; or
 - (bb) if the Cash Settlement Amount after deducting all the Exercise Expenses is equal to or less than zero, the Issuer is not obligated to make any payment to the relevant Warranholder, and the relevant Structured Warrants shall lapse and cease to be valid and the Issuer's obligations in respect of the Structured Warrants shall terminate absolutely;
 - (ii) the closing level of the Underlying Index on the Market Day immediately before the above events shall form the Closing Level for the calculation of the Cash Settlement Amount.

For the avoidance of doubt, the Warranholders shall not be required to pay or top up the Exercise Expenses as the case may be, where the Cash Settlement Amount after deduction of the Exercise Expenses is equal to or less than zero.

Notwithstanding the foregoing, if in the Issuer's discretion as reasonably deemed fit, there is a Market Disruption Event on the date immediately before the above events ("**Set Date**"), the Closing Price shall be based on the Market Day immediately preceding the Market Disruption Event. If the preceding Market Day is also affected by the Market Disruption Event, then the Closing Price shall be determined by the Issuer on the Set Date at its discretion as reasonably deemed fit and on the basis of its good faith estimate the reference price and/or the exchange rate (if applicable) for that Set Date by determining the price of the Underlying Shares and/or the exchange rate (if applicable) based on the prevailing market conditions and other factors as the Issuer may consider relevant.

11. Termination for Force Majeure, etc.

- (a) *Force Majeure, etc.* If the Issuer in its discretion as reasonably deemed fit determines that, for reasons beyond the Issuer's control, the performance of the Issuer's obligations under the Structured Warrants has become illegal or impractical in whole or in part for any reason, or the Issuer in its discretion as reasonably deemed fit determines that, for reasons beyond the Issuer's control, it is no longer legal or practical for the Issuer to maintain its hedging arrangement with respect to the Underlying Index for any reason, the Issuer may in its discretion and without obligation terminate the

Structured Warrants early by giving notice to the Warranholders in accordance with Condition 9 – *Notices*.

- (b) *Termination*. If the Issuer terminates the Structured Warrants early pursuant to Condition 11(a), then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warranholder in respect of each Structured Warrant held by such Warranholder equal to the fair market value of a Structured Warrant (as determined by the Issuer) notwithstanding such illegality or impracticality less the cost to the Issuer of unwinding any Underlying Index related hedging arrangements, all as determined by the Issuer in its sole discretion as reasonably deemed fit. Payment will be made in such manner as shall be notified to the Warranholders in accordance with Condition 9 – *Notices*.

12. Further Issues

The Deed Poll allows the Issuer to create and issue further Structured Warrants in respect of the same series of Structured Warrants pursuant to the Base Prospectus (“**Further Issue**”) without the consent or sanction of the existing Warranholders. The Further Issue will form part of the existing Structured Warrants in issue (“**Existing Issue**”).

13. Claims

In the event that the Issuer makes the Cash Settlement Amount upon a valid exercise of Structured Warrants by a Warranholder and such Warranholder does not present the cheque for payment within six (6) months from the date of the cheque, the Issuer shall at any time thereafter be at liberty to deal with the said monies in accordance and in compliance with, the requirements of the *Unclaimed Moneys Act, 1965 (Act 370) (revised 2002)* of Malaysia.

Warranholders are entitled to the benefit of, are subject to and are deemed to have notice of all the conditions in the Deed Poll.
- (b) *Status.* The Structured Warrants and the Issuer’s settlement obligation in respect of the Structured Warrants constitute general and unsecured contractual obligations of the Issuer’s company and of no other person and the Structured Warrants will rank equally among themselves and *pari passu* with all of the Issuer’s other present and future unsecured and subordinated obligations (save for statutorily preferred exceptions).
- (c) *Title.* Each person who is for the time being shown in the records maintained by Bursa Depository as entitled to a particular number of Structured Warrants shall be treated by the Issuer and the Warrant Registrar as the holder and absolute owner of such number of Structured Warrants.

The Warranholders are not entitled to any physical warrant certificates.

2. Structured Warrants Rights and Exercise Expenses

- (a) *Structured Warrants Rights.* Every Exercise Amount (as defined below) of Structured Warrants entitles the Warranholder, upon due exercise and on compliance with Condition 4 – Exercise below, the right to receive the payment by the Issuer of the Cash Settlement Amount (as defined below) (if any) in the manner set out in Condition 4 – Exercise below.

The “**Cash Settlement Amount**” in respect of the Exercise Amount shall be an amount in cash (if greater than zero) payable in the Settlement Currency, calculated as follows less the Exercise Expenses (as defined below):

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

For the avoidance of doubt, the Warranholders shall not be required to pay or top up the Exercise Expenses as the case may be, where the Cash Settlement Amount after deduction of the Exercise Expenses is equal to or less than zero.

In the case of Call Warrants:

$$\text{Cash Settlement Amount} = \text{Exercise Amount} \times \frac{1}{\text{Exercise Ratio}} \times (\text{Closing Price} - \text{Exercise Price}) \times \text{Settlement Exchange Rate (if applicable)} - \text{Exercise Expenses}$$

In the case of Put Warrants:

$$\text{Cash Settlement Amount} = \text{Exercise Amount} \times \frac{1}{\text{Exercise Ratio}} \times (\text{Exercise Price} - \text{Closing Price}) \times \text{Settlement Exchange Rate (if applicable)} - \text{Exercise Expenses}$$

In the case of the Closing Price and the Exercise Price (as defined below) being quoted in a currency other than RM (as specified in the relevant Term Sheet), the Cash Settlement Amount shall be payable in the Settlement Currency, converted at the prevailing exchange rate as determined by the Issuer, at its discretion as reasonably deemed fit by reference to such source(s) as the Issuer may reasonably determine to be appropriate prior to payment of the Cash Settlement Amount to the Warranholders.

“**Exercise Ratio**” means the number of Structured Warrants to which one (1) Underlying ETF relates, subject to any adjustment as may be necessary in accordance with the adjustment conditions set out in Condition 5 – *Adjustments* below and as specified in the relevant Term Sheet.

“**Exercise Amount**” means the number of Structured Warrants held, which may only be exercised in board lots or integral multiples thereof, as specified in the relevant Term Sheet. One (1) board lot comprises one hundred (100) Structured Warrants.

“**Exercise Expenses**” means charges or expenses including taxes or duties which are incurred in respect of or in connection with the exercise of the Structured Warrants. Such expenses shall include without limitation any transaction fee charged by Bursa Depository, stamp duty, processing fee charged by the Warrant Registrar and administrative cost.

Before the Expiry Date, the “**Closing Price**” shall be determined as follows:

- (i) on a receipt of a valid Exercise Notice before 12.30 p.m. of the Exercise Date being a Market Day which is prior to and including the sixth (6th) Market Day immediately before the Expiry Date, the Closing Price will be based on the closing market price of the Underlying ETF on the Exercise Date; or
- (ii) on a receipt of a valid Exercise Notice on or after 12.30 p.m. of the Exercise Date being a Market Day which is prior to the sixth (6th) Market Day immediately before the Expiry Date, the Closing Price will be based on the closing market price of the Underlying ETF immediately following the Exercise Date; or

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (iii) on a receipt of a valid Exercise Notice on or after 12.30 p.m. of the Exercise Date being a Market Day which falls on the sixth (6th) Market Day immediately before the Expiry Date or at any time during the five (5) Market Days immediately before the Expiry Date, the Closing Price will be based on the Expiry Date Closing Price (as defined below).

On the Expiry Date, the Closing Price (“**Expiry Date Closing Price**”) will be based on any one of the following:

- (i) the average daily VWAP of the Underlying ETF (subject to any adjustment as may be necessary to reflect any capitalisation, rights issue, distribution or others) for the five (5) Market Days prior to and including Market Day immediately before the Expiry Date (“**Valuation Period**”); or
- (ii) the average closing price of the Underlying ETF (subject to any adjustment as may be necessary to reflect any capitalisation, rights issue, distribution or others) during the Valuation Period; or
- (iii) the closing price of the Underlying ETF on the Market Day immediately before the Expiry Date,

as specified by the relevant Term Sheet.

For the Underlying ETF which is quoted on a Securities Exchange outside Malaysia, the Closing Price and the Exercise Price may be quoted in a currency other than RM, as specified in the relevant Term Sheet.

For the purpose of this section, the Exercise Date (i.e. the Market Day on which the Closing Price for Structured Warrants exercised on or prior to the Expiry Date is based) or any Market Day during the Valuation Period shall be referred to as “**Valuation Date**”.

If the Issuer determines, in its sole discretion that on any Valuation Date, a Market Disruption Event (as defined below) has occurred, then the Valuation Date shall be postponed until the first succeeding Market Day on which there is no Market Disruption Event irrespective of whether that postponed Valuation Date would fall on a day that already is or is deemed to be a Valuation Date. If the Market Disruption Event continues to occur up to the eighth (8th) Market Day following the original Valuation Date, then the Valuation Date shall be:

- (i) that eighth (8th) Market Day; and
- (ii) the Issuer shall determine at its discretion as reasonably deemed fit and on the basis of the Issuer’s good faith estimate the reference price and/or the exchange rate (if applicable) for that Valuation Date by determining the price of the Underlying Shares and/or the exchange rate (if applicable) based on the prevailing market conditions and other factors as the Issuer may consider relevant.

For the avoidance of doubt, in the event that a Valuation Date is postponed due to the occurrence of a Market Disruption Event, the Closing Price of the Underlying ETF for such postponed Valuation Date will be the closing market price of the Underlying ETF on the first succeeding Market Day.

3. Tenure, Exercise Period and Expiry Date

- (a) *Tenure.* The tenure of each series of Structured Warrants will be specified in the relevant Term Sheet.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

4. Exercise

- (a) *Exercise Amount.* The number of Structured Warrants to be exercised, which may only be exercised in board lots or integral multiples thereof, as specified in the relevant Term Sheet. One (1) board lot comprises one hundred (100) Structured Warrants.
- (b) *Exercise Notice.* Any determination as to whether the Exercise Notice is duly completed and in proper form shall be made by the Warrant Registrar and shall be conclusive and binding on the Warrantholder. Any Exercise Notice so determined to be incomplete or not in proper form shall be deemed null and void. The Warrant Registrar shall notify the Warrantholder submitting an Exercise Notice if it has been determined that such Exercise Notice is incomplete or not in proper form by ordinary post to the Warrantholder's address recorded in the Record of Depositors or the Exercise Notice, at the risk of the Warrantholder.
- (c) *Exercise Date.* The Market Day on which the duly completed Exercise Notice is delivered to the Warrant Registrar and in respect of which there is a valid exercise of Structured Warrants, provided that any Exercise Notice is received by the Warrant Registrar after 12.30 p.m. on any Market Day shall be deemed to have been delivered on the next following Market Day.

Provided always that:

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (i) in every case compliance must also be made with the requirements set out in the Exercise Notice and other prevailing statutory requirements for the time being applicable;
- (ii) the Warrantheader shall, if so required by the Warrant Registrar, furnish such evidence, if any, as the Warrant Registrar or the Issuer's directors may require to determine the due execution of the Exercise Notice by or on behalf of the Warrantheader exercising the same. Once a valid Exercise Notice is duly delivered by the Warrantheader to the Warrant Registrar, the exercise of such exercise rights shall be irrevocable save with the consent of the Issuer's directors; and
- (iii) where the Warrantheader does not comply with the procedures or restrictions or conditions relating to the exercise of Structured Warrants, the Exercise Notice and any documents received shall be returned to such Warrantheader by ordinary post to the Warrantheader's address recorded in the Record of Depositors at the risk of the Warrantheader.

The aggregate Cash Settlement Amount (less the Exercise Expenses) shall be paid by cheque drawn in favour of the Warrantheader or such other mode as may be approved by Bursa Securities and determined by the Issuer no later than seven (7) Market Days following the Exercise Date or Expiry Date (as the case may be). In the event the Cash Settlement Amount is paid by cheque drawn in favour of the Warrantheader, the cheque shall be delivered by ordinary post to the Warrantheader's address last recorded in the Record of Depositors at the Warrantheader's own risk.

The Cash Settlement Amount less the Exercise Expenses shall be calculated and be payable in the Settlement Currency and rounded down to the nearest two (2) decimal points of the Relevant Currency. The amount of such Cash Settlement Amount shall be final and conclusive and the Issuer shall be discharged from its obligation upon making such payment in accordance with these Conditions.

The Issuer shall not allow the Warrantheader to exercise the Structured Warrants unless the Structured Warrants are or have been designated as "free securities" in accordance with the Rules of Bursa Depository.

- (e) *Automatic Exercise.* The Warrantheaders are not required to serve any notice of exercise. If the Cash Settlement Amount is greater than zero, all Structured Warrants shall be deemed to have been exercised automatically on the Expiry Date. In the event the Cash Settlement Amount is less than or equal to zero, all Structured Warrants shall be deemed to have expired on the Expiry Date and all rights of the Warrantheaders and the Issuer's obligations with respect to such Structured Warrant shall cease and the Warrantheaders shall not be entitled to receive any payment from the Issuer in respect of the Structured Warrants.

For the avoidance of doubt, the Warrantheaders shall not be required to pay or top up the Exercise Expenses as the case may be, where the Cash Settlement Amount after deduction of the Exercise Expenses is equal to or less than zero.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (f) *Settlement Disruption.* The Issuer's ability to determine and deliver the Cash Settlement Amount is affected by the occurrence of a Settlement Disruption Event.

If as a result of a Settlement Disruption Event, it is not possible for the Issuer to make payment on the original Settlement Date (as defined below), the Issuer shall use its reasonable endeavours to procure payment as soon as practicable after the original Settlement Date. The Issuer shall not be liable to the Warrantholder for any interest in respect of the amount due or any loss or damages that such Warrantholder may suffer as a result of the existence of a Settlement Disruption Event.

"**Settlement Date**" means a Market Day and a day upon which payment is made to the Warrantholder, on which commercial banks in Malaysia are open for business during the normal business hours.

Such notice shall be given in accordance with Condition 9 – *Notices* stating the Expiry Date and treatment of the Structured Warrants which are not exercised.

5. Adjustments

- (a) Following the declaration by the manager or trustee of the Underlying ETF of the terms of any Potential Adjustment Event (as defined below), the Issuer will determine whether such a Potential Adjustment Event has a dilutive, concentrative or other effect on the theoretical value of the Underlying ETF and, if so, the Issuer will:

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (i) make the corresponding adjustment, if any, to any one or more of the conditions of the Structured Warrants as the Issuer determines appropriate to account for that dilutive or concentrative or other effect; and
- (ii) determine the effective date of that adjustment.

The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustments in respect of such Potential Adjustment Event made by Bursa Securities and/or such relevant Securities Exchange on which the relevant Underlying ETF are also listed and quoted, unless otherwise specified by the Issuer.

“Potential Adjustment Event” include any of the following:

- (i) a subdivision or consolidation of the Underlying ETF (unless a Merger Event (as defined below)) or a free distribution or dividend of such Underlying ETF to existing holders by way of bonus, capitalisation or similar issue;
 - (ii) a rights issue or bonus issue of the Underlying ETF; or
 - (iii) a special distribution payment in cash of the Underlying ETF;
 - (iv) any other event which may have, in the Issuer’s opinion a dilutive or concentrative or other effect on the theoretical value of relevant Underlying ETF.
- (b) The respective formula for the relevant Potential Adjustment Event are as follows:

- (i) *Subdivisions or Consolidations.* If and whenever the Underlying ETF shall subdivide its units into a greater number of units (**“Subdivision”**) or consolidate the units or any class of its outstanding units into a smaller number of units (**“Consolidation”**), Exercise Price and/or the Exercise Ratio shall be adjusted on the Market Day on which the relevant Subdivision or Consolidation shall have taken effect in accordance with the following formula:

- (i) **Adjusted Exercise Ratio =**

$$E \quad x \quad \frac{P}{N}$$

- (ii) **Adjusted Exercise Price =**

$$X \quad x \quad \frac{P}{N}$$

Where:

- X: Existing Exercise Price immediately prior to the Subdivision or Consolidation
- N: The revised number of issued shares after the Subdivision or Consolidation.
- P: The existing number of issued shares immediately prior to the Subdivision or Consolidation.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

E: Existing Exercise Ratio immediately prior to the Subdivision or Consolidation.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Exercise Price as the Issuer determine appropriate to account for the dilutive or consolidative effect of the Subdivision or Consolidation.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

(ii) *Rights Issue.* If and whenever the Underlying ETF shall, by way of Rights (as defined below), offer new units for subscription at a fixed subscription price to the holders of existing Underlying ETF pro rata to existing holdings ("**Rights Issue**"), Exercise Ratio and/or the Exercise Price will be adjusted to take effect on the Market Day immediately following the last day on which an instrument or transfer of such shares could be lodged so that the transferee of the Underlying ETF would qualify for the Rights Issue in accordance with the following formulas:

$$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = \frac{1 + M}{1 + (R/S) \times M}$$

E: Existing Exercise Ratio immediately prior to the Rights Issue.

X: Existing Exercise Price immediately prior to the Rights Issue.

S: Cum-rights units determined by the closing price on the Securities Exchange on the last Market Day on which the Underlying ETF is traded on a cum-rights basis.

R: Subscription price per Underlying ETF as specified in the Rights Issue plus an amount equal to any dividends or other benefits foregone to exercise the Rights.

M: Number of new Underlying ETF (whether a whole or a fraction) per existing unit each holder thereof is entitled to subscribe.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Exercise Price as the Issuer determine appropriate to account for the dilutive effect of the Rights Issue.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

For the purpose of these Conditions,

“**Rights**” means the Right(s) attached to each existing Underlying ETF or needed to acquire one new Underlying ETF (as the case may be) which are given to the holders of existing Underlying ETF to subscribe at a fixed subscription price for new Underlying ETF pursuant to the Rights Issue (whether by the exercise of one Right, a part of a Right or an aggregate number of Rights);

- (iii) *Bonus issue.* If and whenever the Underlying ETF shall make a new issue of units credited as fully paid to the holders of the Underlying ETF generally by way of capitalisation of profits or reserves (other than pursuant to a scrip dividend or similar scheme for the time being operated by the Underlying ETF or otherwise in lieu of a cash dividend and without any payment or other consideration being made or given by such holders) (“**Bonus Issue**”), the Exercise Ratio and/or Exercise Price will be adjusted on the Market Day immediately following the last day on which an instrument of transfer could be lodged so that the transferee of the Underlying ETF would qualify for the Bonus Issue in accordance with the following formulas:

$$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$
$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = 1 + N$$

E: Existing Exercise Ratio immediately prior to the Bonus Issue.

X: Existing Exercise Price immediately prior to the Bonus Issue.

N: Number of additional Underlying ETF (whether a whole or a fraction) received by a holder of existing Underlying ETF for each Underlying ETF held prior to the Bonus Issue.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Exercise Price as the Issuer determine appropriate to account for the dilutive effect of the Bonus Issue.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (iv) *Distribution Payment.* If the Underlying ETF of the relevant Structured Warrants undertakes a capital repayment in cash whether in the form of special dividend or otherwise during the tenure of the Structured Warrants, the Exercise Price and/or the Exercise Ratio of the Structured Warrants shall be adjusted on the Market Day following the last day on which an instrument of transfer is lodged to enable the transferee of the Underlying ETF to qualify for the special distribution payment by the amount of the special distribution payment, net of taxation, if any.

The Exercise Ratio and Exercise Price for the Structured Warrants shall be adjusted in accordance with the following formula:

- (i) **Adjusted Exercise Ratio =**

$$E \quad X \quad \frac{(P-D)}{P}$$

- (ii) **Adjusted Exercise Price =**

$$Y \quad x \quad \frac{(P-D)}{P}$$

Where:

- P: Closing price of the Underlying ETF on the last Market Day on which the Underlying ETF are traded on a cum-entitlement basis
- D: The capital repayment/special dividend per one (1) Underlying ETF held.
- Y: Existing Exercise Price immediately prior to the special distribution payment.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Exercise Price as the Issuer determines appropriate to account for the effect of the special distribution payment.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

- (c) *Extraordinary Events.* If a Merger Event, De-Listing, Insolvency (as defined below) or such other additional disruption event occurs in relation to the relevant Underlying ETF, the Issuer may take any action described below:
- (i) determine the appropriate adjustment, if any to be made to any one or more of the Conditions to account for the Merger Event, De-Listing, or Insolvency or such other additional disruption event, as the case may be and determine the effective date of that adjustment. The Issuer may, but need not, determine the

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

appropriate adjustment by reference to the adjustment in respect of the Merger Event, De-Listing, Insolvency or such other additional disruption event, made by the Securities Exchange;

- (ii) cancel the Structured Warrants by giving notice to the Warranholders in accordance with Condition 9 – *Notices* if the Structured Warrants are so cancelled, the Structured Warrants held by such Warranholder which amount shall be the fair market value of the Structured Warrants (as determined by the Issuer) taking into account the Merger Event, De-Listing, or Insolvency or such other additional disruption event, as the case may be, less the cost to the Issuer and/or any of its related corporations of unwinding any Underlying ETF related hedging arrangements, all as determined by the Issuer in its discretion as reasonably deemed fit. Payment will be made in such manner as shall be notified to the Warranholders in accordance with Condition 9 – *Notices*; or
- (iii) if there is an adjustment to the settlement terms of the Option Reference Source (as defined below), the Issuer may make a corresponding adjustment to any one or more of the Conditions. Such adjustment shall be effective as of the date determined by the Issuer as the effective date of the corresponding adjustment made as a result of adjustment made by the Option Reference Source in order to account for the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be.

Once the Issuer determines its proposed course of action in connection with a Merger Event, De-Listing, or Insolvency or such other additional disruption event, the Issuer shall give notice to the Warranholders in accordance with Condition 9 – *Notices* stating the occurrence of the Merger Event, De-Listing, or Insolvency or such other additional disruption event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. Warranholders should be aware that due to the nature of such events, the Issuer will not make an immediate determination of its proposed course of action or adjustment upon the announcement or occurrence of Merger Event, De-Listing, or Insolvency or such other additional disruption event.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

For the purpose of these Conditions,

“De-Listing” means the Securities Exchange announces that pursuant to the rules of such Securities Exchange, such Underlying ETF ceases (or will cease) to be listed, traded or publicly quoted on the Securities Exchange for any reason (other than a Merger Event) and is not immediately re-listed, re-traded or re-quoted on a Securities Exchange, trading system or quotation system acceptable to the Issuer.

3. Tenure and Expiry Date

The tenure of each series of Structured Warrants will be specified in the relevant Term Sheet.

The Cash Settlement Amount less the Exercise Expenses shall be calculated and be payable in the Settlement Currency and rounded down to the nearest two (2) decimal points of the Relevant Currency. - (c) *Automatic Exercise.* The Warrantholders are not required to serve any notice of exercise. All Structured Warrants shall be deemed to have been exercised automatically on the Expiry Date at 9.00 a.m. In the event the Cash Settlement Amount is less than or equal to zero, all Structured Warrants shall be deemed to have expired on the Expiry Date and all rights of the Warrantholders and the Issuer's obligations with respect to such Structured Warrant shall cease and the Warrantholders shall not be entitled to receive any payment from the Issuer in respect of the Structured Warrants.

$$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = \frac{1 + M}{1 + (R/S) \times M}$$

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error. $$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

- (ii) replaced by a successor index using, in the Issuer's determination, the same or substantially similar formula for and method of calculation as used in the calculation of the Underlying Index,

then the Underlying Index will be deemed to be the index so calculated and announced by the Successor Underlying Index Sponsor or that successor index, as the case may be.

- (b) *Modification and cessation of calculation of Underlying Index. If:*

- (i) on or prior to the Valuation Date the Underlying Index Sponsor or if applicable, the Successor Underlying Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating the Underlying Index or in any other way materially modifies the Underlying Index (other than modifications prescribed in that formula or method to maintain the Underlying Index in the event of changes in the constituent stocks, contracts or commodities and other routine events); or
- (ii) on a Valuation Date the Underlying Index Sponsor or if applicable, the Successor Underlying Index Sponsor fails to calculate and publish the Underlying Index (other than as a result of a Market Disruption Event) ("**Index Disruption**"),

then the Issuer may determine the Closing Level using, in lieu of a published level for the Underlying Index, the level for the Underlying Index as at that Valuation Date as determined by the Issuer in accordance with the formula for and method of calculating the Underlying Index last in effect prior to that change, modification, cancellation or failure, but using only those shares/commodities that comprised the Underlying Index immediately prior to that change or failure (other than those shares that have since ceased to be listed on the relevant Securities Exchange). Alternatively, the Issuer may determine the reference level using the closing level of the corresponding spot-month index futures contract, if available.

- (c) *Other Adjustments.* Except as provided in this Condition 5 – *Adjustments*, adjustments will not be made in any other circumstances, subject to the right reserved by the Issuer

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (*Cont'd*)

(such right to be exercised in the Issuer's sole discretion as reasonably deemed fit and without any obligation whatsoever) to make such adjustments as the Issuer believes appropriate in circumstances where an event or events occur which the Issuer believes in its sole discretion (and notwithstanding any prior adjustment made pursuant to the above) should, in the context of the issue of the Structured Warrants and its obligation, give rise to such adjustment is considered by the Issuer not to be materially prejudicial to the Warrantheolders generally (without considering the circumstances of any individual Warrantheolder or the tax or other consequences of such adjustment in any particular jurisdiction).

- (d) On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.
- (e) Notwithstanding the foregoing, no adjustments shall be made to the Exercise Ratio and/or Exercise Price if the formula stated in this Condition 5 – Adjustments results in an adjustment which would amount to less than two percent (2%) of the Exercise Ratio and/or Exercise Price being changed.
- (f) *Notice of Adjustments.* All determinations made by the Issuer pursuant hereto will be conclusive and binding on the Warrantheolders. The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective by publication in accordance with Condition 9 – *Notices* within five (5) Market Days of the adjustment being made.

6. Buy-backs and Cancellation

8. Modification of rights

- (a) All or any of the rights for the time being attached to the Structured Warrants (other than the Exercise Price which a Warranholder is entitled to or the formula for the adjustment of the Exercise Price or the Exercise Ratio or any other condition, which may be modified in accordance with the provisions as set out in these Conditions) may be altered or abrogated by the Issuer from time to time (whether or not the Issuer is being wound up), and the sanction of a Special Resolution passed at a meeting of the Warranholders held as aforesaid shall be necessary to effect such alteration or abrogation.
- (b) Notwithstanding the above, the Issuer may without the consent of the Warranholders but in accordance with the terms of the Deed Poll, effect any modification to the Structured Warrants or the Deed Poll which, in the opinion of the Issuer, is:

A notice is deemed to have been given and served on the date of announcement or publication as the case may be or, if announced or published more than once or on different dates, on the first date on which it is announced or published.

All notices effected in accordance with this Condition shall be deemed to be effective in respect of all persons who become Warranholders after the date the relevant notice is announced or published, as the case may be.

10. Take-Over, Merger, Liquidation, Dissolution or Winding-Up of the Issuer

- (a) In the event of a take-over or a scheme of arrangement or any other form of reorganisation undertaken by the Issuer or any other events having similar effects on the rights of the Warranholders, the Issuer reserves the right in its sole discretion and without any obligation whatsoever to deal with the Structured Warrants in such manner as the Issuer reasonably deem fit in the circumstances and with or without adjustments to the rights attaching to the relevant Structured Warrants.
- (b) In the event of the Issuer's merger, amalgamation or reconstruction, the corporation, trust or other body into which the Issuer is merged, amalgamated, or reconstructed shall assume all the Issuer's liabilities and obligations in respect of the Structured Warrants so that the rights of the Warranholders shall continue to exist and be enforceable to the same extent as provided by the Issuer under the Deed Poll.
- (c) In the event of the Issuer's liquidation, dissolution or winding-up or the appointment of a receiver or administrator or analogous person under any applicable law in respect of the whole or substantially the whole of the Issuer's undertaking, property or assets, the Structured Warrants remaining outstanding shall be deemed to be exercised on the Market Day immediately prior to the date of such liquidation, dissolution, winding-up or appointment as follows:

 - (aa) if the Cash Settlement Amount after deducting all the Exercise Expenses is greater than zero, the Issuer shall make payment of the Cash Settlement Amount to the relevant Warranholder; or
 - (bb) if the Cash Settlement Amount after deducting all the Exercise Expenses is equal to or less than zero, the Issuer is not obligated to make any payment to the relevant Warranholder, and the relevant Structured Warrants shall lapse and cease to be valid and the Issuer's obligations in respect of the Structured Warrants shall terminate absolutely;

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (*Cont'd*)

Notwithstanding the foregoing, if in the Issuer's discretion as reasonably deemed fit, there is a Market Disruption Event on the date immediately before the above events ("**Set Date**"), the Closing Price shall be based on the Market Day immediately preceding the Market Disruption Event. If the preceding Market Day is also affected by the Market Disruption Event, then the Closing Price shall be determined by the Issuer on the Set Date at its discretion as reasonably deemed fit and on the basis of its good faith estimate the reference price and/or the exchange rate (if applicable) for that Set Date by determining the price of the Underlying Shares and/or the exchange rate (if applicable) based on the prevailing market conditions and other factors as the Issuer may consider relevant.

11. Termination for Force Majeure, etc.

- (a) *Force Majeure, etc.* If the Issuer in its discretion as reasonably deemed fit determines that, for reasons beyond the Issuer's control, the performance of the Issuer's obligations under the Structured Warrants has become illegal or impractical in whole or in part for any reason, or the Issuer in its discretion as reasonably deemed fit determines that, for reasons beyond the Issuer's control, it is no longer legal or practical for the Issuer to maintain its hedging arrangement with respect to the Underlying Index for any reason, the Issuer may in its discretion and without obligation terminate the Structured Warrants early by giving notice to the Warrantheholders in accordance with Condition 9 – *Notices*.

- (b) *Termination.* If the Issuer terminates the Structured Warrants early pursuant to Condition 11(a), then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warrantheolder in respect of each Structured Warrant held by such Warrantheolder equals to the fair market value of a Structured Warrant (as determined by the Issuer) notwithstanding such illegality or impracticality less the cost to the Issuer of unwinding any Underlying ETF related hedging arrangements, all as determined by the Issuer in its sole discretion as reasonably deemed fit. X: Existing Exercise Price immediately prior to the Subdivision or Consolidation

N: The revised number of issued shares after the Subdivision or Consolidation.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

(ii) *Rights Issue.* If and whenever the Underlying Company shall, by way of Rights (as defined below), offer new shares for subscription at a fixed subscription price to the holders of existing Underlying Shares pro rata to existing holdings (“**Rights Issue**”), the Exercise Ratio, Exercise Price and/or the Call Price will be adjusted to take effect on the Market Day immediately following the last day on which an instrument or transfer of such shares could be lodged so that the transferee of the share(s) would qualify for the Rights Issue in accordance with the following formulas:

(i) **Adjusted Exercise Ratio = $\frac{E}{\text{Adjustment Factor}}$**

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

$$(ii) \quad \text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = \frac{1 + M}{1 + (R/S) \times M}$$

E: Existing Exercise Ratio immediately prior to the Rights Issue.

X: Existing Exercise Price immediately prior to the Rights Issue.

S: Cum-rights share price determined by the closing price on the Securities Exchange on the last Market Day on which the Underlying Shares are traded on a cum-rights basis.

(iii) *Bonus Issue.* If and whenever the Underlying Company shall make a new issue of shares credited as fully paid to the holders of the Underlying Shares generally by way of capitalisation of profits or reserves (other than pursuant to a scrip dividend or similar scheme for the time being operated by the Underlying Company or otherwise in lieu of a cash dividend and without any payment or other consideration being made or given by such holders) (“**Bonus Issue**”), the Exercise Ratio, Exercise Price and/or Call Price will be adjusted on the Market Day immediately following the last day on which an instrument of transfer could be lodged so that the transferee of the share(s) would qualify for the Bonus Issue in accordance with the following formulas:

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

(ii)

$$\text{Adjusted Exercise Price} = \frac{X}{\text{Adjustment Factor}}$$

$$\text{Adjustment Factor} = 1 + N$$

E: Existing Exercise Ratio immediately prior to the Bonus Issue.

X: Existing Exercise Price immediately prior to the Bonus Issue.

N: Number of additional Underlying Shares (whether a whole or a fraction) received by a holder of existing Underlying Shares for each Underlying Share held prior to the Bonus Issue.

On any such adjustment, the resultant Exercise Ratio and/or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

Notwithstanding the above, if a capital repayment undertaken by the relevant Underlying Company results in a significant change in the business of such Underlying Company or such other circumstances as the Issuer may determine, the Issuer reserves the right, at its sole discretion as reasonably deemed fit and without obligation whatsoever, to terminate the Structured Warrants, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warranthead in respect of each Structured Warrant held by such Warranthead if the Cash Settlement Amount after deducting all Exercise Expenses, is greater than zero (without the Warranthead having to deliver a valid exercise form). The Cash Settlement Amount shall be determined based on the fair market value of the Structured Warrants (as determined by the Issuer) after taking into account the capital repayment exercise less all Exercise Expenses, as determined by the Issuer at its discretion as reasonably deemed fit.

Payment will be made in such manner as shall be notified to the Warrantheads in accordance with Condition 11 – *Notices*; or

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- (iii) if there is an adjustment to the settlement terms of the Option Reference Source (as defined below), the Issuer may make a corresponding adjustment to any one or more of the Conditions. Such adjustment shall be effective as of the date determined by the Issuer as the effective date of the corresponding adjustment made as a result of adjustment made by the Option Reference Source in order to account for the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be.

Once the Issuer determines its proposed course of action in connection with a Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, the Issuer shall give notice to the Warranholders in accordance with Condition 11 – *Notices* stating the occurrence of the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. Warranholders should be aware that due to the nature of such events, the Issuer will not make an immediate determination of its proposed course of action or adjustment upon the announcement or occurrence of Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event.

On any such adjustment, the resultant Exercise Ratio and/ or Exercise Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustments made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

- (i) make the corresponding adjustment, if any, to any one or more of the conditions of the Bull ELS as the Issuer determines appropriate to account for that dilutive or concentrative or other effect; and
- (ii) determine the effective date of that adjustment.

The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustments in respect of such a Potential Adjustment Event made by Bursa Securities and/or such relevant Securities Exchange determined by the Issuer on which the shares constituting the Underlying Shares are listed and quoted, unless otherwise specified by the Issuer.

“Potential Adjustment Event” means any of the following:

- (i) a subdivision, consolidation or reclassification of relevant Underlying Shares (unless a Merger Event (as defined herein)) or a free distribution or dividend of such Underlying Shares to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a call by the Underlying Company in respect of relevant Underlying Shares that are not fully paid;
- (iii) a repurchase or buy-back by the Underlying Company of relevant Underlying Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (iv) a rights issue or bonus issue of the Underlying Shares;
- (v) a capital repayment in cash whether in the form of a special dividend or otherwise pursuant to the Act; or
- (vi) any other event which may have, in the Issuer’s opinion a dilutive or concentrative or other effect on the theoretical value of relevant Underlying Shares.

(b) The respective formula for the relevant Potential Adjustment Event are as follows:

- (i) *Subdivisions or Consolidations*. If and whenever the Underlying Company shall subdivide its Underlying Shares or any class of its outstanding share capital comprised of the Underlying Shares into a greater number of shares (**“Subdivision”**) or consolidate the Underlying Shares or any class of its outstanding share capital comprised of the Underlying Shares into a smaller number of shares (**“Consolidation”**), Strike Price and/or the Exercise Ratio shall be adjusted on the Market Day on which the relevant Subdivision or Consolidation shall have taken effect in accordance with the following formula:

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

(i) **Adjusted Exercise Ratio =**

$$E \times \frac{P}{N}$$

(ii) **Adjusted Exercise Price =**

$$X \times \frac{P}{N}$$

Where:

X: Existing Strike Price immediately prior to the Subdivision or Consolidation

N: The revised number of issued shares after the Subdivision or Consolidation.

P: The existing number of issued shares immediately prior to the Subdivision or Consolidation.

E: Existing Exercise Ratio immediately prior to the Subdivision or Consolidation.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Strike Price as the Issuer determine appropriate to account for the dilutive or consolidative effect of the Subdivision or Consolidation.

On any such adjustment, the resultant Exercise Ratio and/or Strike Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

(ii) *Rights Issue.* If and whenever the Underlying Company shall, by way of Rights (as defined below), offer new shares for subscription at a fixed subscription price to the holders of existing Underlying Shares pro rata to existing holdings ("**Rights Issue**"), the Exercise Ratio and/or the Strike Price will be adjusted to take effect on the Market Day immediately following the last day on which an instrument or transfer of such shares could be lodged so that the transferee of the share(s) would qualify for the Rights Issue in accordance with the following formulas:

(i) **Adjusted Exercise Ratio =**
$$\frac{E}{\text{Adjustment Factor}}$$

(ii) **Adjusted Strike Price =**
$$\frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = \frac{1 + M}{1 + (R/S) \times M}$$

E: Existing Exercise Ratio immediately prior to the Rights Issue.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

- X: Existing Strike Price immediately prior to the Rights Issue.
- S: Cum-rights share price determined by the closing price on the Securities Exchange on the last Market Day on which the Underlying Shares are traded on a cum-rights basis.
- R: Subscription price per Underlying Share as specified in the Rights Issue plus an amount equal to any dividends or other benefits foregone to exercise the Rights.
- M: Number of new Underlying Shares (whether a whole or a fraction) per existing Underlying Share each holder thereof is entitled to subscribe.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Strike Price as the Issuer determine appropriate to account for the dilutive effect of the Rights Issue.

On any such adjustment, the resultant Exercise Ratio and/or Strike Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

For the purpose of these Conditions,

“**Rights**” means the Right(s) attached to each existing Underlying Share or needed to acquire one new Underlying Share (as the case may be) which are given to the holders of existing Underlying Shares to subscribe at a fixed subscription price for new Underlying Shares pursuant to the Rights Issue (whether by the exercise of one Right, a part of a Right or an aggregate number of Rights).

- (iii) *Bonus Issue.* If and whenever the Underlying Company shall make a new issue of shares credited as fully paid to the holders of the Underlying Shares generally by way of capitalisation of profits or reserves (other than pursuant to a scrip dividend or similar scheme for the time being operated by the Underlying Company or otherwise in lieu of a cash dividend and without any payment or other consideration being made or given by such holders) (“**Bonus Issue**”), the Exercise Ratio and/or Strike Price will be adjusted on the Market Day immediately following the last day on which an instrument of transfer could be lodged so that the transferee of the share(s) would qualify for the Bonus Issue in accordance with the following formulas:

$$(i) \quad \text{Adjusted Exercise Ratio} = \frac{E}{\text{Adjustment Factor}}$$
$$(ii) \quad \text{Adjusted Strike Price} = \frac{X}{\text{Adjustment Factor}}$$

Where:

$$\text{Adjustment Factor} = 1 + N$$

- E: Existing Exercise Ratio immediately prior to the Bonus Issue.
- X: Existing Strike Price immediately prior to the Bonus Issue.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

N: Number of additional Underlying Shares (whether a whole or a fraction) received by a holder of existing Underlying Shares for each Underlying Share held prior to the Bonus Issue.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Strike Price as the Issuer determine appropriate to account for the dilutive effect of the Bonus Issue.

On any such adjustment, the resultant Exercise Ratio and/or Strike Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

- (iv) *Capital Repayment.* If the Underlying Company of the relevant Structured Warrants undertakes a capital repayment in cash whether in the form of special dividend or otherwise (pursuant to the Act or such other corresponding provision in the relevant country in which the Underlying Shares are listed and quoted) during the tenure of the Structured Warrants, the Exercise Ratio and/or the Strike Price of the Structured Warrants shall be adjusted on the Market Day following the last day on which an instrument of transfer is lodged to enable the transferee of the Underlying Shares to qualify for the capital repayment by the amount of the capital repayment, net of taxation, if any.

The Exercise Ratio and/or Strike Price for the Structured Warrants shall be adjusted in accordance with the following formula:

- (i) **Adjusted Exercise Ratio =**

$$E \quad \times \quad \frac{(P-D)}{P}$$

- (ii) **Adjusted Strike Price =**

$$Y \quad \times \quad \frac{(P-D)}{P}$$

Where:

P: Closing price of the Underlying Shares on the last Market Day on which the Underlying Shares are traded on a cum-entitlement basis

D: The capital repayment/special dividend per one (1) Underlying Share held.

Y: Existing Strike Price immediately prior to the capital repayment/special dividend.

E: Existing Exercise Ratio immediately prior to the capital repayment/special dividend.

Alternatively, the Issuer may also, at its discretion as reasonably deemed fit, make a corresponding adjustment to the Exercise Ratio and/or Strike Price as the Issuer determines appropriate to account for the dilutive effect of the capital repayment/special dividend.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

On any such adjustment, the resultant Exercise Ratio and/or Strike Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

Notwithstanding the above, if a capital repayment undertaken by the relevant Underlying Company results in a significant change in the business of such Underlying Company or such other circumstances as the Issuer may determine, the Issuer reserves the right, at its sole discretion as reasonably deemed fit and without obligation whatsoever, to terminate the Structured Warrants, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warrantholder in respect of each Structured Warrant held by such Warrantholder if the Cash Settlement Amount after deducting all Exercise Expenses, is greater than zero (without the Warrantholder having to deliver a valid exercise form). The Cash Settlement Amount shall be determined based on the fair market value of the Structured Warrants (as determined by the Issuer) after taking into account the capital repayment exercise less all Exercise Expenses, as determined by the Issuer at its discretion as reasonably deemed fit.

- (c) *Extraordinary Events.* If a Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency (as defined below) or such other additional disruption event occurs in relation to the relevant Underlying Shares, the Issuer may take any action described below:
- (i) determine the appropriate adjustment, if any to be made to any one or more of the Conditions to account for the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be and determine the effective date of that adjustment. The Issuer may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event made by the Securities Exchange;
 - (ii) cancel the Bull ELS by giving notice to the Warrantholders in accordance with Condition 9 – *Notices* if the Structured Warrants are so cancelled, the Structured Warrants held by such Warrantholders which amount shall be the fair market value of the Structured Warrants taking into account the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be, less the cost to the Issuer and/or any of its related corporations of unwinding any Underlying Shares related hedging arrangements, all as determined by the Issuer in its discretion as reasonably deemed fit. Payment will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 9 – *Notices*; or
 - (iii) if there is an adjustment to the settlement terms of the Option Reference Source (as defined below), the Issuer may make a corresponding adjustment to any one or more of the Conditions. Such adjustment shall be effective as of the date determined by the Issuer as the effective date of the corresponding adjustment made as a result of adjustment made by the Option Reference Source in order to account for the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be.

Once the Issuer determines its proposed course of action in connection with a Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

disruption event, the Issuer shall give notice to the Warranholders in accordance with Condition 9 – *Notices* stating the occurrence of the Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. Warranholders should be aware that due to the nature of such events, the Issuer will not make an immediate determination of its proposed course of action or adjustment upon the announcement or occurrence of Merger Event, Take-Over Offer, De-Listing, Nationalisation, Insolvency or such other additional disruption event.

On any such adjustment, the resultant Exercise Ratio and/or Strike Price shall be rounded to the nearest four (4) decimal points of the Relevant Currency and all such adjustment made by the Issuer pursuant to this Condition shall be deemed as final and conclusive save for any manifest error.

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (*Cont'd*)

be altered or abrogated by the Issuer from time to time (whether or not the Issuer is being wound up), and the sanction of a Special Resolution passed at a meeting of the Warranholders held as aforesaid shall be necessary to effect such alteration or abrogation.

- (b) Notwithstanding the above, the Issuer may without the consent of the Warranholders but in accordance with the terms of the Deed Poll, effect any modification to the Structured Warrants or the Deed Poll which, in the opinion of the Issuer, is:
- (i) not materially prejudicial to the interests of the Warranholders; or
 - (ii) of a formal, minor or technical nature; or
 - (iii) necessary or expedient to correct a manifest error, or to comply with mandatory provisions of law or rules or regulations; or

Notwithstanding the foregoing, if in the Issuer's discretion as reasonably deemed fit, there is a Market Disruption Event on the date immediately before the above events ("**Set Date**"), the Closing Price shall be based on the Market Day immediately preceding the Market Disruption Event. If the preceding Market Day is also affected by the Market Disruption Event, then the Closing Price shall be determined by the Issuer on the Set Date at its discretion as reasonably deemed fit and on the basis of its good faith estimate the reference price and/or the exchange rate (if applicable) for that Set Date by determining the price of the Underlying Shares and/or the exchange rate (if applicable) based on the prevailing market conditions and other factors as the Issuer may consider relevant.

- (b) *Termination.* If the Issuer terminates the Bull ELS early pursuant to Condition 11(a), then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warranholder in respect of each Bull ELS held by such Warranholder equals to the fair market value of a Bull ELS notwithstanding such illegality or impracticality less the cost to the Issuer of unwinding any Underlying Shares related hedging

ANNEXURE I PRINCIPAL TERMS OF DEED POLL (Cont'd)

12. Further Issues

The Deed Poll allows the Issuer to create and issue further Structured Warrants in respect of the same series of Structured Warrants pursuant to the Base Prospectus (“**Further Issue**”) without the consent or sanction of the existing Warranholders. The Further Issue will form part of the existing Structured Warrants in issue (“**Existing Issue**”).

13. Claims

In the event that the Issuer makes the Cash Settlement Amount upon a valid exercise of Structured Warrants by a Warranholder and such Warranholder does not present the cheque for payment within six (6) months from the date of the cheque, the Issuer shall at any time thereafter be at liberty to deal with the said monies in accordance and in compliance with, the requirements of the *Unclaimed Moneys Act, 1965 (Act 370) (revised 2002)* of Malaysia.
