35,000,000 EUROPEAN STYLE NON-COLLATERALISED CASH-SETTLED CALL WARRANTS OVER THE HANG SENG TECH INDEX ("HSTECH") WITH AN EXERCISE RATIO OF 688 CALL WARRANTS : 1 HSTECH UNIT ("CALL WARRANTS") AT AN ISSUE PRICE OF RM0.160 PER CALL WARRANT

Issuer and Liquidity Provider

KENANGA INVESTMENT BANK BERHAD

(Company No.: 197301002193 (15678-H))
(A Participating Organisation of Bursa Malaysia Securities Berhad)
(Incorporated in Malaysia under the Companies Act 2016)

This Term Sheet is published in connection with the offering of the Call Warrants to be issued by Kenanga Investment Bank Berhad ("**Issuer**") for the purpose of providing information on the Call Warrants. This Term Sheet is supplemental to and must be read together with the Base Prospectus dated 5 June 2026 ("**Base Prospectus**") and the First Supplementary Base Prospectus dated 12 October 2026 ("**First Supplementary Base Prospectus**") which set out the information on the Issuer and the Structured Warrants (as defined herein).

We may update or amend the Base Prospectus from time to time by way of supplementary documents. You should ask us if any supplement to the Base Prospectus has been issued. The Base Prospectus and any supplement to the Base Prospectus will be available on Bursa Malaysia Securities Berhad's ("**Bursa Securities**") website at www.bursamalaysia.com. These documents will also be available for inspection at our registered office during our office hours for a period of twelve (12) months from the date of the Base Prospectus.

YOU ARE ADVISED TO READ AND UNDERSTAND THE CONTENTS OF THE BASE PROSPECTUS, THE FIRST SUPPLEMENTARY BASE PROSPECTUS AND THIS TERM SHEET. IF IN DOUBT, PLEASE CONSULT A PROFESSIONAL ADVISER. FOR INFORMATION CONCERNING RISK FACTORS WHICH SHOULD BE CONSIDERED BY PROSPECTIVE INVESTORS, SEE RISK FACTORS COMMENCING ON PAGE 4 OF THIS TERM SHEET AND PAGE 15 OF THE BASE PROSPECTUS.

The Call Warrants are to be listed and traded on the Structured Warrants Board of Bursa Securities.

We have applied to Bursa Securities for permission to list and quote the Call Warrants on the Official List of the Structured Warrants Board of Bursa Securities. As at the date of this Term Sheet, Bursa Securities has granted the said permission.

The date of this Term Sheet is 3 November 2026

Listing	:	Structured Warrants Board of Bursa Securities
Calculation Agent	:	Kenanga Investment Bank Berhad

Best and worst case scenarios of the Warrantholders' investment in the Call Warrants:-

- **Best case scenario**

  The level of the HSTECH increases substantially resulting in a significant increase in the price of the Call Warrants. If the Warrantholders hold the Call Warrants until the Expiry Date, the more the Closing Level of the HSTECH is relative to the Exercise Level of the Call Warrants, the higher the return will be after considering the transaction costs. If the Warrantholders sell the Call Warrants prior to the Expiry Date, the more the selling price of the Call Warrants exceeds the purchase price of the Call Warrants, the higher the return will be after considering their transaction costs.

- **Worst case scenario**

  The level of the HSTECH decreases significantly resulting in a substantial decrease in the price of the Call Warrants. If the Warrantholders have not sold the Call Warrants and the Call Warrants expires out-of-money, the maximum loss will be the Warrantholder's entire investment amount in the Call Warrants plus any transaction costs.

2. RISK FACTORS

BEFORE INVESTING IN THE CALL WARRANTS, YOU SHOULD CAREFULLY READ, UNDERSTAND AND CONSIDER THE FOLLOWING RISK FACTORS IN ADDITION TO OTHER INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET AND RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS AND THE FIRST SUPPLEMENTARY BASE PROSPECTUS.

INVESTMENTS IN THE CALL WARRANTS INVOLVE DIFFERENT RISKS INCLUDING BUT NOT LIMITED TO MARKET RISK, LIQUIDITY RISK, CREDIT RISK AND THE RISK THAT YOU MAY SUSTAIN TOTAL LOSS OF YOUR INVESTMENT IN THE CALL WARRANTS.

YOU SHOULD CONSIDER CAREFULLY WHETHER THE CALL WARRANTS ARE SUITABLE FOR YOU TAKING INTO ACCOUNT YOUR EXPERIENCE, OBJECTIVES, FINANCIAL POSITION AND OTHER RELEVANT CIRCUMSTANCES. YOU SHOULD POSSESS ADEQUATE KNOWLEDGE OF THE CALL WARRANTS BEFORE INVESTING.

2.1 No investigation or review performed on the HSTECH and HSICL

We have not performed any investigation or review of the HSTECH or HSICL. Therefore, you should not assume that the issuance of Call Warrants over HSTECH represents a recommendation by us of an investment related to the HSTECH.

In addition, you should be aware that HSICL or the companies constituting the HSTECH has not participated in the preparation of the Base Prospectus, the First Supplementary Base Prospectus and this Term Sheet, or in establishing the Terms. As a consequence, there can be no assurance that all events occurring before the date of this Term Sheet that would affect the level of the HSTECH or the share price of the companies constituting the HSTECH (and therefore the price of the Call Warrants) have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the HSTECH or the companies constituting the HSTECH could affect the level of the HSTECH and therefore the trading price of the Call Warrants. Further, neither HSICL nor the companies constituting the HSTECH has any obligation with respect to the settlement amount to be paid to you (if any) upon exercise of the Call Warrants, including any obligation to take into account, for any reason, our needs, or your needs.

2.2 Credit risk

If you purchase our Call Warrants, you should be aware that you will be relying on the creditworthiness of our Company. You must therefore make your own assessment on the credit risk associated with KIBB and our ability to perform our obligations in respect of our Call Warrants. Credit ratings assigned by the rating agency reflect their opinion on our credit risk, which is only one aspect of any investment decision, and ratings are subject to change.

2.3 Value of Call Warrants may be affected by Inherent risks relating to the HSTECH

The HSTECH, launched on 27 July 2020, represents the largest technology companies by market capitalisation (averaged over a 12-month period before and including the index's quarterly review date) listed in Hong Kong that meet the HSTECH's screening criteria, which includes minimum turnover requirements (further information can be found in the link for the index's calculation methodology below).

HSTECH constituent stocks are classified under Industrials, Consumer Discretionary, Healthcare, Financials or Information Technology industries. The constituent stocks have high exposure to selected technology themes and operate technology-enabled businesses, with strong research and development investment or exhibit high revenue growth.

2. RISK FACTORS *(Cont'd)*

An updated list of the constituent stocks comprising the HSTECH is available at https://www.hsi.com.hk/eng/indexes/all-indexes/hstech.

You should note that the occurrence of any material or adverse events in relation to the companies constituting the HSTECH may affect the performance of the HSTECH and may consequentially affect the value of Call Warrants.

2.4 Time decay

Call Warrants have expiry dates and therefore, a limited life. Call Warrants are generally more valuable when the remaining life of the Call Warrants are longer. After expiry, the Call Warrants will cease to be traded and can no longer be exercised, hence will cease to have any value.

2.5 The Base Prospectus, the First Supplementary Base Prospectus and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus, the First Supplementary Base Prospectus and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus or the First Supplementary Base Prospectus or this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Call Warrants or the HSTECH.

2.6 Adjustment related risks

The occurrence of certain events (including modification and cessation of calculation of the HSTECH and replacement of HSICL by a successor) may entitle us to adjust the Terms of the Call Warrants. However, we are not obliged to adjust the Terms of the Call Warrants for every event that affects the HSTECH. Any adjustment or decision not to make any adjustment may adversely affect the value of the Call Warrants.

2.7 Calculation methodology

The HSTECH adopts free float-adjusted market capitalisation weighted methodology with a pre-determined cap on individual constituent securities.

Details on the calculation methodology can be found at https://www.hsi.com.hk/eng/indexes/all-indexes/hstech.

2.8 Exchange rate risk

You should note that there may be an exchange rate risk where the Cash Settlement Amount may be converted from a foreign currency into Ringgit Malaysia. The conversion may potentially result in foreign exchange losses if there is any adverse movement in the exchange rate which will be borne by the Warrantholders.

2. RISK FACTORS *(Cont'd)*

2.9 Risks related to any possible future outbreaks of disease

Any possible future outbreaks of disease may have a material and adverse effect on the performance of HSTECH and consequently affect the value of the Call Warrants.

Should there be another outbreak of disease that causes disruptions to global and domestic economic activity, KIBB Group's financial position may be adversely impacted. Prolonged and material impact on KIBB Group's financial position may also cause a downward rating in KIBB Group credit rating profile, which could in turn affect the ability to meet our financial commitments as a Structured Warrants Issuer.

KIBB Group has put in place the necessary Standard Operating Procedures ("SOP") for the possible future outbreaks of disease and fortify the vibrancy of Business Continuity Management ("BCM") of the Group to ensure the preparedness, responsiveness and robustness in managing this event risk.

3. SUPPLEMENTAL GENERAL INFORMATION

3.1 Basis of arriving at the issue price

The issue price of the Call Warrants of RM0.160 was based on an option pricing model which takes into account the Exercise Level of the Call Warrants, volatility of HSTECH, tenure of the Call Warrants and interest rates.

3.2 Details on use of gross proceeds

We will use the indicative total gross proceeds arising from the Offer of up to RM5.60 million, based on the issue price of RM0.160, in the following manner:-

	Note	RM
Working capital	(i)	5,350,000
Estimated expenses	(ii)	250,000
Total		**5,600,000**

Notes:-

(i) This amount will be utilised for our general working capital purposes during the tenure of the Call Warrants.

(ii) The estimated expenses include but not limited to professional fees, fees to authorities, selling fees and printing fees which will be used as and when the expenses are incurred.

(iii) The financial impact of the Offer on our earnings depends on certain factors including, but not limited to, the performance of HSTECH vis-à-vis the market as well as the costs relating to risk management i.e. hedging and its associated costs.

3.3 Break-even analysis

Warrantholders may calculate the break-even level of their investments in the Call Warrants as follows:-

$$\text{Break-even Level} = \text{Exercise Level} + \left(\frac{[(\text{Purchase Cost}^{(i)} \times \text{Exercise Ratio}) + \text{Exercise Expenses}^{(ii)}]}{\text{Settlement Exchange Rate}}\right) \times \left(\frac{1}{\text{Index Currency Amount}}\right)$$

Notes:-

(i) This is the amount a Warrantholder pays for every unit of Call Warrant in the primary or secondary market, including where relevant, transaction costs such as brokerage fees, clearing fees and stamp duty.

(ii) The Exercise Expenses will be borne by KIBB unless affected by the occurrence of a settlement disruption event.

Warrantholders will obtain positive gain only if the level of HSTECH exceeds the break-even level upon exercise of the Call Warrants.

3. SUPPLEMENTAL GENERAL INFORMATION *(Cont'd)*

3.4 Further issue

The Deed Poll allows KIBB to create and issue further Structured Warrants in respect of the same series of Structured Warrants pursuant to the Base Prospectus and the First Supplementary Base Prospectus ("**Further Issue**") without the consent or sanction of the existing Warrantholders. The Further Issue will form part of the existing Structured Warrants in issue ("**Existing Issue**").

For the purpose of facilitating Market Making, KIBB may apply for a Further Issue in respect of the Structured Warrants subject to the following conditions:-

(i) the Further Issue is for the purpose of facilitating Market Making;
(ii) the terms and conditions of the Existing Issue either permit the Further Issue or have been properly amended to give us the right to issue and list one or more Further Issues;
(iii) the terms and conditions of the Further Issue and the Existing Issue must be identical except for the size and tenure of the issue; and
(iv) the Issuer holds not more than 50% of the Existing Issue at the time of application for the Further Issue.

3.5 Liquidity provision

We will be acting as the liquidity provider for the trading of the Call Warrants on Bursa Securities.

As an Issuer, it is our business policy to stand by our products by providing liquidity. As currently stipulated by Bursa Securities, we will maintain a minimum market presence of 80% of trading hours on each day that Bursa Securities is open for trading and a maximum spread between bid and offer prices of ten (10) bids.

The process of providing liquidity involves maintaining bid and offer prices on the trading system of Bursa Securities on each Market Day, over the life of the Call Warrants. Although we endeavour to provide liquidity for the Call Warrants on Bursa Securities, the level of liquidity will depend on competitive forces and the price at which the Call Warrants will trade on Bursa Securities upon or subsequent to its listing. Besides the supply and demand for the Call Warrants in the secondary market, there are other factors affecting the price of the Call Warrants such as, without limitation, the underlying unit price, intrinsic value, dividend expectations, expected volatility, prevailing interest rates and the time left to the expiry of the Call Warrants.

As the liquidity provider, we would need to maintain a certain number of Call Warrants as inventory for the purposes of liquidity provision during the tenure of the Call Warrants. The minimum quantity of Call Warrants for which liquidity will be provided is fifty (50) board lots (5,000 units of Call Warrants). We may during the tenure of the Base Prospectus and the First Supplementary Base Prospectus issue additional Call Warrants in a particular series subject to the approval of Bursa Securities.

However, you should note that there would be circumstances under which we are unable and could not be obliged to provide liquidity, due to reasons beyond our control. Such circumstances are set out in Section 5.2 of the Base Prospectus.

You may obtain bid/offer prices for the Call Warrants (in respect of prices that appear on the trading system of Bursa Securities, and/or in respect of direct business transactions) from us at the following contact details:-
